2018-2021 Instructional Technology Plan - Annually - 2018

II. Strategic Technology Planning

Section II - Strategic Technology Planning

1. What is the overall district mission?

The mission of the Beacon City School District is to prepare all students to meet high and challenging educational standards and to live, work, cooperate, and compete successfully in a global, multicultural society by creating and supporting an encouraging learning environment through quality programs and services which promote intellectual, physical, and cultural growth and honor cultural diversity.

2. What is the vision statement that guides instructional technology use in the district?

Accept primary responsibility for giving students a mastery of the basic skills of learning, thinking, and problem solving; for teaching them to use various media of self-expression; for instilling in them a knowledge of the social and natural sciences; for acquainting them with the richness of our heritage; and for stimulating them to productive work in the various areas of human endeavor.

3. List three goals that will drive the attainment of the vision.

	List Goals
Goal 1	<i>Goal 1: Provide an array of professional development opportunities to increase staff members' technology literacy and awareness.</i>
Goal 2	<i>Goal 2: Continue to build and maintain an infrastructure that supports the educational community.</i>
Goal 3	<i>Goal 3: Provide students with access to a variety of resources that will enable them to develop skills for the 21st century.</i>

4. Do you want to list a fourth goal that will drive attainment of the vision?

No

5. Do you want to list a fifth goal that will drive attainment of the vision?

No

6. Summarize the planning process used to develop answers to the Instructional Technology Plan questions and/or your district comprehensive instructional technology plan. Please include the stakeholder groups participating and the outcomes of the instructional technology plan development meetings.

A sub-committee of the district's Technology Committee was formed to develop answers to the Instructional Technology Plan Questions and to develop our district's comprehensive instructional technology plan.

7. Please describe the professional development plan for building the capacity of educators and administrators in the attainment of the instructional technology vision.

The district is considering the development of a virtual micro credentialing platform to help build the capacity of educator's administrators in the attainment of the instructional vision. The district is also allocating additional resources towards professional development conferences and travel that support the instructional technology vision of the district.

8. How will the instructional technology goals be measured and evaluated during and after implementation? Be sure to include any tools or metrics that are part of this evaluation process.

The instructional technology goals will be measured and evaluated during and after implementation using survey data and through the analysis of software utilization data.

For help with completing the plan, please visit 2018-2021 ITP Resources for Districts, contact your district's RIC, or email edtech@nysed.gov.

IV. NYSED Initiatives Alignment

Section IV - NYSED Initiatives Alignment

1. **Explain how the district use of instructional technology will serve as a part of comprehensive and sustained effort to support rigorous academic standards attainment and performance improvement for students.**

The district will use instructional technology to build and enhance students' foundational technology skills and then build upon these skills to foster student creativity and engagement through the use of technology. These skills will support rigorous academic standards and student improvement by preparing students to take standardized tests administered by NYSED and provide opportunities for students to become independent learners.

2. **Students with disabilities may be served through the use of instructional technology as well as assistive technology devices and services to ensure access to and participation in the general curriculum. Describe how instruction is differentiated using technology to support the individualized learning needs of this student group.**

Instruction is differentiated using technology to support individual learning needs of this group as recommended through our relationship with our BOCES assistive technology specialists employing the utilization of text to speech, inverted color, text to braille, bookshare, and other software programs.

3. **How does the district utilize technology to address the needs of Students with Disabilities to ensure equitable access to instruction, materials, and assessments? Check all that apply.**

- Class lesson plans, materials, and assignment instructions are available to students and families for 'anytime, anywhere' access (such as through class website or learning management system).
- Direct instruction is recorded and provided for students to access asynchronously (such as through a learning management system or private online video channel).
- Technology is used to provide additional ways to access key content, such as providing videos or other visuals to supplement verbal or written instruction or content.
- Text to speech and/or speech to text software is utilized to provide increased support for comprehension of written or verbal language.
- Assistive technology is utilized.
- Technology is used to increase options for students to demonstrate knowledge and skill.
- Learning games and other interactive software are used to supplement instruction.
- Other (please identify in Question 3a, below)

4. **Please select the professional development that will be offered to teachers of Students with Disabilities that will enable them to differentiate learning and to increase their student language and content learning with the use of technology. Check all that apply.**
