

EXPLORE CHEMICAL ENGINEERING

SPRING EVENT 2023

Get to know the chemical engineering department at Manhattan College

The department of Chemical Engineering at Manhattan College is hosting on campus events this spring. Please join us to learn all about our offerings!

THURSDAY, JANUARY 26

Chemical Engineering Meet-and-Greet

6:30 - 8:30 P.M.

Students and parents are welcome to visit us in person for the following:

- Learn about chemical engineering
- Participate in a unique hands-on chemical engineering experience
- Tour our new labs
- Meet faculty and students
- Join us for food and drink

Areas of Concentration: Consumer products and cosmetic engineering, biopharmaceutical engineering and engineering of novel and smart materials.

Register for the event using the QR code.

DISCOVER

What is a chemical engineer?

What is unique about MC chemical engineering?

How bright is the future for chemical engineering majors?

What types of projects do chemical engineers work on?

How is chemical engineering different from chemistry and other engineering majors?
