Dr. Matthew Landahl
Superintendent of Schools

November 16, 2020

Dear BCSD Community:

Today we learned about an individual at Rombout Middle School with a confirmed case of COVID-19. The person has been isolated for several days now. Due to federal health privacy laws, further information about their identification or condition cannot be released. We have thoroughly reviewed the case with the county health department today as well.

After this review, we have decided that Rombout Middle School will remain open for students. There will be some individuals who will need to quarantine and our staff will be contacting you and your family tonight. If we do not contact you, you do not need to quarantine. Since this impacted the school on a Gold hybrid day, Blue students should be ready to come to school tomorrow.

Please let us know if you have any questions or concerns.

Sincerely,

Matthew Landahl
Superintendent of Schools
