Dr. Matthew Landahl
Superintendent of Schools

November 2, 2020

Dear Beacon Families:

I wanted to update you on the status of our schools today. After having a chance to more thoroughly review J.V. Forrestal with both district staff and the county health department, I am closing Forrestal to students through Wednesday, November 11. Students will be able to return to the building on Thursday, November 12. Our staff is still contacting families this afternoon about the need to quarantine and the communication should be complete by tonight. Your child only needs to quarantine if you receive direct communication from us. Remote learning plans will be in effect for Forrestal during this time and teachers and administration will be reaching out with more information tomorrow and Wednesday. Again, I know this is a challenge for everyone but taking these safety precautions is part of our reopening plan.

As of today, we are on track to reopen Beacon High School and Rombout Middle School on Thursday, November 5. I will send out a communication on Wednesday afternoon/evening to confirm this.

Please keep wearing your masks, get your flu shot, and stay in touch with us when you have a question or concern.

Sincerely,

Matt Landahl
Superintendent of Schools
