# BEACON CITY SCHOOL DISTRICT - PROPOSED 2017 CAPITAL PROJECT

## Renewing our School District for a Successful Future

The Beacon City School District is focused on delivering a safe and nurturing educational experience for all students. After an extensive planning process by our Board of Education, staff and community stakeholders, our proposed Capital Project promotes an enhanced learning environment that strengthens and maintains our ability to provide a modern, safe infrastructure for learning. BCSD's Capital Improvement Plan is a roadmap for the growth and improvement of the District's physical spaces.

This Capital Project is contingent upon the District securing the necessary funding. The Beacon City School District will hold a **Special School District Vote on Tuesday, December 5, 2017** for approval of the following Bond Resolution:

*"Shall the September 25, 2017 bond resolution authorizing the issuance of \$7,652,998 bonds to pay costs of the reconstruction of and improvements to school facilities, site work and incidental costs, at a maximum estimated cost of \$8,995,000 (30 year maximum maturity); the expenditure of \$1,000,000 capital reserve funds and \$342,002 EXCEL funds therefor, providing for a tax levy therefor in annual installments; pledging the District's faith and credit for debt service; delegating power with respect to bonds and notes; and providing for an estoppel procedure, be approved?"*

### \*ZERO NEW TAX IMPACT ON OUR DISTRICT

This Capital Project is the most fiscally responsible way to Maintain and Upgrade our District. Building Aid funds are currently available from the State which reimburses 66.9% of the costs. In addition, a balance of funds remaining from the EXCEL project, funds in our Capital Reserves, and a decrease in our district debt, all contribute to allow the project to be funded with **NO NEW SCHOOL TAX INCREASES.**
