

00:24:13.500 --> 00:24:15.450  
awhite: Alright, so I'm going to start the meeting.

141  
00:24:15.960 --> 00:24:16.410  
awhite: Right, all

142  
00:24:19.860 --> 00:24:20.730  
awhite: Right. Alright, so I'm gonna ask you

143  
00:24:38.490 --> 00:24:39.120  
Craig Wolf: With everybody

144  
00:24:39.210 --> 00:24:39.780  
And justice.

145  
00:24:43.440 --> 00:24:44.880  
awhite: Kelly wasn't able to get on. Right.

146  
00:24:45.420 --> 00:24:46.260  
annmariequartironi: Now, not yet.

147  
00:24:46.740 --> 00:24:47.820  
awhite: Okay, so

148  
00:24:47.940 --> 00:24:48.750  
Craig Wolf: Um,

149  
00:24:49.170 --> 00:24:51.180  
awhite: I need a motion to Clark.

150  
00:24:51.300 --> 00:24:54.600  
awhite: Pro Tem until Kelly gets on

151  
00:24:55.620 --> 00:24:56.070  
meredithheuer: Ocean.

152  
00:24:56.790 --> 00:24:58.920

awhite: Meredith is their second

153

00:25:00.000 --> 00:25:00.510

Kristan Flynn: Second,

154

00:25:01.110 --> 00:25:04.860

awhite: Kristin, and I would like to have it be Emery. Are you okay with that.

155

00:25:05.010 --> 00:25:05.670

annmariequartironi: Yeah, that's fine.

156

00:25:06.420 --> 00:25:08.460

awhite: All those in favor of Emory being a clerk or

157

00:25:08.730 --> 00:25:09.840

awhite: Comments or questions about

158

00:25:11.400 --> 00:25:13.650

Craig Wolf: All those in favor of Emory being a quick pro tip.

159

00:25:16.260 --> 00:25:17.760

awhite: Raise your hand. Awesome.

160

00:25:18.240 --> 00:25:18.840

Pose.

161

00:25:19.920 --> 00:25:21.390

awhite: Motion carried. Ain't nothing

162

00:25:21.990 --> 00:25:23.910

awhite: Alright, so, Emery. Will you do them off.

163

00:25:24.210 --> 00:25:26.460

annmariequartironi: To our Miss Flynn.

164

00:25:27.030 --> 00:25:27.300

Here.

165

00:25:28.410 --> 00:25:29.190

Miss Stadler

166

00:25:30.930 --> 00:25:31.620

annmariequartironi: Mr. CASEY

167

00:25:32.460 --> 00:25:32.790

You're

168

00:25:35.970 --> 00:25:36.330

Craig Wolf: Here.

169

00:25:42.030 --> 00:25:42.990

awhite: I saw him here.

170

00:25:45.660 --> 00:25:45.930

awhite: Yep.

171

00:25:49.980 --> 00:25:50.370

annmariequartironi: Fewer

172

00:25:50.940 --> 00:25:51.240

Here.

173

00:25:53.400 --> 00:25:54.090

annmariequartironi: I'm forgetting.

174

00:25:55.260 --> 00:25:55.860

annmariequartironi: Mr. White

175

00:25:56.670 --> 00:25:59.280

Mike Rutkoske: Here Mr Rakowski here to

176

00:25:59.910 --> 00:26:01.890

annmariequartironi: Ski I knew I forgot you I'm sorry.

177

00:26:01.980 --> 00:26:04.620

meredithheuer: Well, and did you did you call Alyssa.

178

00:26:04.920 --> 00:26:08.430

awhite: Alyssa better bit is did she like, you know, Meredith, or

179

00:26:08.520 --> 00:26:09.540

meredithheuer: He must be delayed.

180

00:26:09.810 --> 00:26:10.650

awhite: Yeah, she's delayed.

181

00:26:10.800 --> 00:26:11.640

annmariequartironi: Delayed okay

182

00:26:12.090 --> 00:26:12.330

Yeah.

183

00:26:14.340 --> 00:26:15.330

awhite: Alright, so

184

00:26:15.630 --> 00:26:21.150

awhite: Before we get started with the we thought it would be appropriate to have a moment of silence for all the corona arm.

185

00:26:21.780 --> 00:26:27.420

awhite: All the people that are the victims of the crime virus or coven 19 so if you could please rise for a moment of silence, that would be great.

186

00:26:42.600 --> 00:26:43.350

awhite: All right. Thank you.

187

00:26:45.060 --> 00:26:54.210

awhite: So I, I asked grace I reached out to Grace and I thought it would be good to get a student perspective as to how the students are reacted to this.

188

00:26:54.360 --> 00:26:55.050

awhite: Culture and stuff.

189

00:26:55.380 --> 00:26:57.360

awhite: So I reached out to grace our student arm.

190

00:26:57.540 --> 00:27:02.430

awhite: Rep to the board to see if she could partake in a little bit of the meaning, give us a student rep so

191

00:27:02.760 --> 00:27:03.360

awhite: Grace, if you

192

00:27:03.690 --> 00:27:14.580

awhite: Mind starting out with a student report of one house learning going in this school closure environment and how, from your perspective, you know, how's everything going and stuff.

193

00:27:14.850 --> 00:27:18.150

Grace Affeldt: Okay. All right. Thank you. Um, can you hear me okay or

194

00:27:18.660 --> 00:27:20.130

Grace Affeldt: Okay. All right. Um,

195

00:27:21.000 --> 00:27:23.100

Grace Affeldt: It's definitely a very big change.

196

00:27:23.760 --> 00:27:26.040

Grace Affeldt: Especially since it all happen so abruptly.

197

00:27:27.210 --> 00:27:30.090

Grace Affeldt: I think the the teachers are doing a really great job of

198

00:27:30.210 --> 00:27:33.030

Grace Affeldt: Communicating with us and they'll give us office hours.

199

00:27:33.210 --> 00:27:33.570

Craig Wolf: Which

200

00:27:33.660 --> 00:27:34.620

Grace Affeldt: Which helps so

201

00:27:34.800 --> 00:27:38.970

Grace Affeldt: You can kind of try and understand the lesson, but they're also being very flexible.

202

00:27:39.570 --> 00:27:40.950

Grace Affeldt: Especially with the workload.

203

00:27:41.160 --> 00:27:42.990

Grace Affeldt: And like the assignments.

204

00:27:43.260 --> 00:27:46.710

Grace Affeldt: Because like it's kind of hard to teach myself AP Calculus.

205

00:27:47.040 --> 00:27:49.800

Grace Affeldt: But they're being good. So that's great.

206

00:27:51.810 --> 00:27:54.270

Grace Affeldt: It's just definitely a big change, especially since like

207

00:27:54.450 --> 00:27:56.790

Grace Affeldt: This is supposed to be the second half of senior year.

208

00:27:57.000 --> 00:27:57.690

Grace Affeldt: And now I'm

209

00:27:57.900 --> 00:27:59.550

Grace Affeldt: Getting my room all day but

210

00:27:59.760 --> 00:28:03.540

Grace Affeldt: Um, I think we're all doing well. So it's good so far.

211

00:28:05.520 --> 00:28:07.500

awhite: Does anybody have any questions for grace.

212

00:28:14.460 --> 00:28:19.080

Antony Tseng: So grace is there. I mean, what he asked for us.

213

00:28:20.610 --> 00:28:22.860

Antony Tseng: What you feel with Nikki here.

214

00:28:23.460 --> 00:28:24.420

Antony Tseng: I know we're all feeling

215

00:28:26.130 --> 00:28:28.320

Grace Affeldt: Yeah. Um, I think that

216

00:28:28.380 --> 00:28:43.950

Grace Affeldt: Whole administration and especially Minnesota. She's doing a great job with the weekly emails and trying to like keep hopes up and spirits and just letting us know everything that they know, just so we don't feel on the outs and we understand what's going on not just

217

00:28:45.000 --> 00:28:46.980

Grace Affeldt: Just so it's not all confusing, so it's

218

00:28:46.980 --> 00:28:47.370

Craig Wolf: It's

219

00:28:47.430 --> 00:28:48.000

Going well

220

00:28:51.120 --> 00:29:01.860

Antony Tseng: Okay. And are you aware that i guess i mean though the beacon mutual aid group and a couple other organizations, is that okay so anybody needs anything you were to be able to

221

00:29:03.060 --> 00:29:03.450

Antony Tseng: Yeah.

222

00:29:03.810 --> 00:29:09.090

Grace Affeldt: Yeah, I know that that lunch programs. I've heard great great things about that. So that's one of the

223

00:29:09.600 --> 00:29:10.770

Grace Affeldt: Good things going on.

224

00:29:14.010 --> 00:29:20.220

awhite: Grace. I want to thank you. I know that it's it's difficult time especially being a senior, you know, senior year things going on.

225

00:29:20.490 --> 00:29:26.910

awhite: And I want to thank you for taking a little time out of your day to update us on the perspective, because we can only imagine, but to hear it from

226

00:29:27.180 --> 00:29:27.840

awhite: A senior that's

227

00:29:27.870 --> 00:29:30.030

awhite: Coming through it a lot more to us.

228

00:29:30.330 --> 00:29:31.140

Grace Affeldt: Yeah, thank you.

229

00:29:31.410 --> 00:29:32.940

awhite: Thank thank you very much grace.

230

00:29:33.060 --> 00:29:34.500

Craig Wolf: This is great. All right.

231

00:29:35.130 --> 00:29:36.030

awhite: Thank you. Bye bye.

232

00:29:40.710 --> 00:29:41.130

Craig Wolf: Alright.

233

00:29:42.450 --> 00:29:45.270

Craig Wolf: So I'm going to move to the superintendent support.

234

00:29:48.060 --> 00:29:51.300

awhite: Oh I'm sorry that I'm sorry, that was just unigram. I'm sorry, the workshop

235

00:29:52.200 --> 00:29:54.270

awhite: Matt and Emory. We're going to do a workshop on

236

00:29:54.450 --> 00:29:54.960  
Budget.

237

00:29:56.190 --> 00:29:58.710

Matt Landahl: Right. And we're gonna, I'm just gonna

238

00:29:58.770 --> 00:30:01.170

Matt Landahl: Switch locations really quickly.

239

00:30:01.470 --> 00:30:04.110

Matt Landahl: Because my having some Wi Fi issues so

240

00:30:04.590 --> 00:30:06.000

Matt Landahl: I'll be on one minute.

241

00:30:49.500 --> 00:30:50.340

meredithheuer: Power yesterday.

242

00:30:55.980 --> 00:31:00.300

Craig Wolf: Lot of power outage in southern beacon, and an area just north of the city.

243

00:31:01.890 --> 00:31:03.840

James Case-Leal: I lost power for more than the day

244

00:31:04.230 --> 00:31:06.180

James Case-Leal: Just came on around noon today. Yeah.

245

00:31:08.520 --> 00:31:10.350

Mike Rutkoske: Yeah, luckily, I had no problems.

246

00:31:11.940 --> 00:31:13.620

Antony Tseng: Yeah, I was fortunate enough to lose power you

247

00:31:15.420 --> 00:31:16.230

Antony Tseng: Know, Mike.

248

00:31:18.000 --> 00:31:18.450

All right.

249

00:31:20.610 --> 00:31:21.660

Matt Landahl: I am back

250

00:31:21.660 --> 00:31:22.740

Matt Landahl: Sorry about that.

251

00:31:28.260 --> 00:31:35.580

Matt Landahl: I have done probably 20 or 30 meetings in the room. I was just simple for some reason the Wi Fi wasn't working. So I apologize.

252

00:31:37.050 --> 00:31:38.250

Matt Landahl: Emery, and I wanted to

253

00:31:39.570 --> 00:31:41.550

Matt Landahl: Provide a quick

254

00:31:42.150 --> 00:31:43.920

Matt Landahl: Update just on

255

00:31:44.130 --> 00:31:47.970

Matt Landahl: Where we are with the budget, obviously, a lot of things are changing.

256

00:31:48.390 --> 00:31:50.940

Matt Landahl: And so we wanted to just

257

00:31:50.940 --> 00:31:52.410

Matt Landahl: Kind of go through that so

258

00:31:53.100 --> 00:31:55.350

Matt Landahl: We can scroll to the first slide.

259

00:31:55.890 --> 00:31:58.440

Matt Landahl: So we wanted to just take a moment we've done this at

260

00:31:58.470 --> 00:32:01.260

Matt Landahl: The last few board meetings, but we want to take a moment and just

talk

261

00:32:01.260 --> 00:32:04.920

Matt Landahl: About some of the things that we've accomplished over the last several

262

00:32:04.920 --> 00:32:05.640

Matt Landahl: Years.

263

00:32:05.730 --> 00:32:07.500

Craig Wolf: In the budget so

264

00:32:08.040 --> 00:32:09.720

Matt Landahl: Over the last few years, we've added seven

265

00:32:10.170 --> 00:32:15.120

Matt Landahl: Teachers to the elementary level to do class size reductions that has brought our class size average down

266

00:32:15.810 --> 00:32:16.560

Craig Wolf: To about

267

00:32:17.010 --> 00:32:21.660

Matt Landahl: 18.5 and the range is also

268

00:32:21.720 --> 00:32:37.590

Matt Landahl: Decrease quite a bit. So the range is about 15, I think, is our smallest class to about 22 is our largest so we're really proud of that effort. And that's taken three years for the budget, we added fourth grade instrumental music after we did it grant funded for a year.

269

00:32:38.040 --> 00:32:41.100

Matt Landahl: We had a social worker at beacon High School. Last year we added a

270

00:32:41.100 --> 00:32:42.720

Matt Landahl: Point five art teacher if he can high

271

00:32:42.720 --> 00:32:43.320

Matt Landahl: School

272

00:32:44.310 --> 00:32:46.740

Matt Landahl: This one has been huge. The last month.

273

00:32:47.190 --> 00:32:47.820

Matt Landahl: But we

274

00:32:49.170 --> 00:32:50.850

Matt Landahl: Push hard of the last few years to

275

00:32:50.850 --> 00:32:52.890

Matt Landahl: Go one to one with our Chromebook model for

276

00:32:52.890 --> 00:32:53.580

Matt Landahl: All students

277

00:32:54.210 --> 00:33:00.120

Matt Landahl: And so we were able to deploy the Chromebooks really quickly and

278

00:33:00.450 --> 00:33:01.980

Matt Landahl: Efficiently. The first

279

00:33:02.340 --> 00:33:03.450

Matt Landahl: Week. We were out

280

00:33:03.990 --> 00:33:05.250

Craig Wolf: And so

281

00:33:06.150 --> 00:33:11.310

Matt Landahl: You know, a lot of our students are making use of them. So that's been great. And then we also really revamp

282

00:33:11.790 --> 00:33:14.520

Matt Landahl: And increase professional development in the district.

283

00:33:14.940 --> 00:33:17.130

Matt Landahl: And and we've been

284

00:33:17.430 --> 00:33:23.100

Matt Landahl: Really proud of those efforts and they've updated the board and a lot of different ways about that. So you can go to the next slide.

285

00:33:24.210 --> 00:33:25.740

Matt Landahl: So there's not a lot here.

286

00:33:26.400 --> 00:33:35.160

Matt Landahl: Because you know we were thinking about doing some shifts with scheduling at the high school, which would be increased staffing and we were thinking of

287

00:33:35.220 --> 00:33:38.430

Matt Landahl: Of also possibly adding

288

00:33:39.060 --> 00:33:40.680

Matt Landahl: You know, some pieces of staffing

289

00:33:41.370 --> 00:33:42.630

Matt Landahl: It was some of the changes with the

290

00:33:42.630 --> 00:33:49.680

Matt Landahl: Budget especially obviously with the revenue shortfall in New York State which has been traumatic.

291

00:33:50.550 --> 00:33:51.360

Matt Landahl: That we are

292

00:33:52.470 --> 00:33:59.400

Matt Landahl: Our goal of this budget now is the whole setting and all the things we've accomplished over the last few years, and to not be adding staff.

293

00:34:00.390 --> 00:34:04.950

Matt Landahl: So so items that are postponed for a future budget year I'm estimating that would

294

00:34:04.950 --> 00:34:05.310

Be

295

00:34:06.960 --> 00:34:08.160  
Matt Landahl: At best, probably the

296

00:34:08.190 --> 00:34:26.340  
Matt Landahl: 2022 23 school year, but would be to make changes to the high school and round up schedules that would involve some extra staffing, we are postponing the business teacher that we actually had in last year's budget that went unfilled this year because we are looking for the

297

00:34:27.690 --> 00:34:30.240  
Matt Landahl: We're kind of struggling to find the right person for that.

298

00:34:30.420 --> 00:34:37.440  
Matt Landahl: You want to hold back on that. Another area I talked about elementary class size reduction, we're actually going to be able to save a position there.

299

00:34:38.640 --> 00:34:43.830  
Matt Landahl: We had three years ago, we added an extra third grade teacher to Forrestal

300

00:34:44.730 --> 00:34:46.740  
Matt Landahl: Because of an increase in student numbers there.

301

00:34:47.010 --> 00:34:51.840  
Matt Landahl: And so now those fifth graders will be graduating from Corazon they don't need that.

302

00:34:51.990 --> 00:34:54.810  
Matt Landahl: One particular teacher. So that's another savings.

303

00:34:55.170 --> 00:35:02.550  
Matt Landahl: And with people retiring. It's not anyone. It's not a position being cut. We're just sort of read applying someone

304

00:35:05.430 --> 00:35:08.490  
Matt Landahl: To kind of offset again some of our

305

00:35:09.690 --> 00:35:21.690  
Matt Landahl: Some of our funding. So this is a really proposing is to focus on the amazing things we've accomplished over the last few years, and to do everything

possible to maintain those in this budget and hopefully next year's

306

00:35:22.590 --> 00:35:25.710

Craig Wolf: By really, you know, an efficient, effective use of resources.

307

00:35:26.760 --> 00:35:27.750

Matt Landahl: So next slide.

308

00:35:30.420 --> 00:35:35.610

Matt Landahl: So emrys going to walk you through this part and then we'll do

309

00:35:35.640 --> 00:35:36.150

Questions.

310

00:35:37.530 --> 00:35:38.820

annmariequartironi: Okay, so, um,

311

00:35:39.030 --> 00:35:45.870

annmariequartironi: This is something different that we haven't seen before we got our final state aid runs on, we were taught, we had

312

00:35:46.590 --> 00:35:47.820

annmariequartironi: A line item called

313

00:35:48.000 --> 00:35:49.170

annmariequartironi: Pandemic adjustment.

314

00:35:49.800 --> 00:35:55.560

annmariequartironi: Which was for 720 4006 47 of a deduct off of our state aid.

315

00:35:55.920 --> 00:35:57.960

annmariequartironi: Our foundation aid was frozen at the

316

00:35:59.010 --> 00:36:02.940

annmariequartironi: Level, which was less than what the governor had put out originally

317

00:36:03.720 --> 00:36:09.180

annmariequartironi: And then an ad back was the federal Kazakh restoration of the same exact amount. So right now what

318

00:36:09.660 --> 00:36:12.720

annmariequartironi: Listening to webinars and talking, you know, to other

319

00:36:13.500 --> 00:36:15.330

Craig Wolf: People in the field. We're seeing that

320

00:36:15.840 --> 00:36:21.420

annmariequartironi: The Federal cares restoration, the federal government gave schools, the money directly on the state is

321

00:36:21.510 --> 00:36:24.240

annmariequartironi: Taking that money basically back as a deduct

322

00:36:25.140 --> 00:36:29.160

annmariequartironi: And if they need to make further adjustments that pandemic adjustment may be

323

00:36:29.580 --> 00:36:30.510

annmariequartironi: A little bit more.

324

00:36:30.600 --> 00:36:31.560

annmariequartironi: But for right now, it's

325

00:36:31.740 --> 00:36:34.110

annmariequartironi: It's equal so we can talk about

326

00:36:34.530 --> 00:36:36.660

annmariequartironi: A little bit more about it later about us.

327

00:36:36.930 --> 00:36:37.710

annmariequartironi: What we think about

328

00:36:37.800 --> 00:36:38.490

Craig Wolf: State aid.

329

00:36:38.700 --> 00:36:40.500

annmariequartironi: I put in their measurement periods.

330

00:36:41.460 --> 00:36:44.070

annmariequartironi: The governor was very strong about

331

00:36:44.280 --> 00:36:44.940

annmariequartironi: The state.

332

00:36:45.180 --> 00:36:50.100

annmariequartironi: Really being in bad shape being 15 \$16 billion on

333

00:36:51.210 --> 00:37:05.250

annmariequartironi: In the red and they he's cautioning about our state aid. So although they pass the budget and they gave us the state aid their measurement period. So if the state does not receive the revenues or their expenditures are more than certain

334

00:37:06.780 --> 00:37:10.380

annmariequartironi: Caps, they will look to come back and take some money back from

335

00:37:10.380 --> 00:37:12.030

annmariequartironi: This from the school districts

336

00:37:12.390 --> 00:37:27.480

annmariequartironi: On. So the first measurement period being April 1 April 30 so everyone is cautioning school districts, because the budget vote was postponed, till at least June 2 not to adopt the budget until after April 1

337

00:37:27.570 --> 00:37:28.230

Matt Landahl: April 30

338

00:37:28.710 --> 00:37:38.550

annmariequartironi: Just to see where we are on just because you know if you adopt the budget and then you, you find out at the end of April, that you have de dup then you've

339

00:37:38.640 --> 00:37:40.560

annmariequartironi: You've already gone through the process. So,

340

00:37:40.770 --> 00:37:53.550

annmariequartironi: For for the first part of this. They're telling us to wait until May, which we can legally because of the budget or being postponed, and let let the governor. See you know kind of where we are. So those are the two things.

341

00:37:54.240 --> 00:37:56.730

annmariequartironi: That are new that look different on the state aid runs

342

00:37:57.960 --> 00:37:58.650

annmariequartironi: Mike, you can come

343

00:37:59.250 --> 00:37:59.850

annmariequartironi: Next slide.

344

00:38:01.500 --> 00:38:09.360

annmariequartironi: This slide, you've seen before on this is our tax cap calculation and again we can raise the level up by

345

00:38:09.360 --> 00:38:24.030

annmariequartironi: 3.23%. I think this is a really important slide, probably more than ever because next year. I imagine with what the economy is going through. It's not going to look like this. We are not going to get a cap.

346

00:38:24.600 --> 00:38:26.670

Craig Wolf: On we're not gonna be able to raise

347

00:38:26.940 --> 00:38:38.970

annmariequartironi: The budget and the levy that much and the allowable growth factor of 1.8% is tied to CPI right now CPI is is probably not exist in or negative

348

00:38:39.660 --> 00:38:50.400

annmariequartironi: Our tax base growth factor, although it might be delayed a year may not be as high as that part. So in looking at this calculation. It's important to know that, you know, although we're trying to

349

00:38:50.580 --> 00:38:53.670

annmariequartironi: Keep taxes as low as possible for our taxpayers.

350

00:38:54.570 --> 00:39:06.240

annmariequartironi: We have to look more in the future, we have to look for next year in the year after because next year in the year after with the financial condition right now, we're not going to be able to raise the levy that much with all that's going on.

351

00:39:07.440 --> 00:39:08.550

Craig Wolf: On. Next slide please.

352

00:39:10.890 --> 00:39:12.750

annmariequartironi: This slide just basically shows us the

353

00:39:12.750 --> 00:39:13.920

annmariequartironi: revenue streams.

354

00:39:14.400 --> 00:39:17.820

annmariequartironi: shows us the state aid, the use of reserves and fund balance.

355

00:39:18.330 --> 00:39:20.340

annmariequartironi: On the tax reduction reserve.

356

00:39:21.270 --> 00:39:36.630

annmariequartironi: I had in the budget for 1920 we actually don't need it this year because we are going to have savings in the budget this year, things that we just expenses that we're not incurring because we're not in school that Reserve has to be used by the

357

00:39:38.130 --> 00:39:41.730

annmariequartironi: School year. So we're going to move it over into the other area.

358

00:39:42.630 --> 00:39:44.070

annmariequartironi: For next year so

359

00:39:44.880 --> 00:39:56.670

annmariequartironi: Our that's our levee amount. I just want to say one other thing about and we'll talk a little bit about the open items in the questions later on. But the bus proposition is something that we don't know about yet.

360

00:39:57.150 --> 00:40:05.700

annmariequartironi: What we were understanding about deciding about the budget vote if if we do not go out for a public vote for some reason we can't have a bus

proposition.

361

00:40:06.450 --> 00:40:20.310

annmariequartironi: That needs to be a vote by the public. So that's that amount. There might change a little bit as well. I just wanted to kind of alert you to that. But that's right now is, is if we're having a budget vote, the beginning of June, we can put the bus proposition on

362

00:40:21.510 --> 00:40:22.110

annmariequartironi: On the ballot.

363

00:40:23.430 --> 00:40:24.390

annmariequartironi: Next slide please.

364

00:40:26.160 --> 00:40:28.050

annmariequartironi: And this is just a slide showing what we had.

365

00:40:28.080 --> 00:40:30.420

annmariequartironi: What we'd like our bus proposition to be

366

00:40:31.200 --> 00:40:43.680

annmariequartironi: That was part of Ron's presentation earlier on. Couple months ago and we would finance that total amount over five years to match our transportation stayed at 59.3%

367

00:40:45.120 --> 00:40:45.930

annmariequartironi: Next slide please.

368

00:40:47.670 --> 00:40:51.480

annmariequartironi: So our estimated tax increases, which is always an interesting conversation.

369

00:40:52.050 --> 00:41:00.150

annmariequartironi: Because I have to use current assessed values right now and basic star. They have not changed the star exemption yet for this year which is which is a little bit late.

370

00:41:01.050 --> 00:41:05.430

annmariequartironi: So we use current assessments and what we're presenting on the budget, the way it is right this minute

371

00:41:05.970 --> 00:41:15.270

annmariequartironi: And those would be the tax increases for the average home and I know a couple meetings ago we had, you know, just a workshop on how the budget works with the levy is

372

00:41:15.930 --> 00:41:20.490

annmariequartironi: Why people's taxes went up more than what we thought, even though the tax rate went down.

373

00:41:20.940 --> 00:41:31.740

annmariequartironi: About assessment. So this is using current information at the time. And what we will be presenting to the public right now knowing, you know, knowing what we don't know that.

374

00:41:32.220 --> 00:41:38.010

annmariequartironi: What the assessments will be or what the star exemption will be we wanted to give everybody an idea of how much their taxes would

375

00:41:38.010 --> 00:41:38.340

Craig Wolf: Go up

376

00:41:39.540 --> 00:41:40.500

annmariequartironi: Next slide please.

377

00:41:42.450 --> 00:41:46.740

annmariequartironi: So this slide is probably the most important slide because we still have questions unanswered.

378

00:41:47.040 --> 00:41:58.650

annmariequartironi: So again, the big question. How long will school be closed. We don't know. Will there be adjustments in the state agents amount of the end of April. That's a big question. I think everyone's trying to wait to see how this will work.

379

00:41:58.980 --> 00:42:06.480

annmariequartironi: There are two other measurements periods. One is may 1 to June 30 and what is the first quarter of our school year for next year.

380

00:42:07.620 --> 00:42:08.850

annmariequartironi: Any of those three times.

381

00:42:09.000 --> 00:42:14.820

annmariequartironi: Governor can decrease the aid but April is kind of a benchmark, we kind of see what's you know what's going on.

382

00:42:15.420 --> 00:42:28.320

annmariequartironi: Will we even have a budget vote will, you know, are they will it be an absentee ballot type of thing of, you know, it will be paper ballots. We had spoken about that. Will the board adopt the budget, um,

383

00:42:29.550 --> 00:42:42.060

annmariequartironi: And then that that was we would just have a budget and no no propositions. If we do vote. When will it be, um, they said it's postponed till after June 1. We don't know anything more than that right now.

384

00:42:42.840 --> 00:42:57.540

annmariequartironi: If we vote how be done. Will it be paper absentee ballot, will the Board approve it. We don't know. And then what happens with the board elections, if we don't have a vote will everybody get a year extension and those are the kind of things that everyone else is talking about.

385

00:42:58.590 --> 00:43:00.720

annmariequartironi: I'm sure some of you watch the news.

386

00:43:01.620 --> 00:43:11.940

annmariequartironi: Webinar on Saturday, which they were still. These were all the questions that were unanswered and and although they know that it's important that they make some decisions rather quickly those decisions.

387

00:43:12.540 --> 00:43:13.800

annmariequartironi: haven't quite been made yet.

388

00:43:14.820 --> 00:43:15.510

annmariequartironi: Next slide.

389

00:43:17.700 --> 00:43:23.790

annmariequartironi: So it's our questions and answers will stay tuned and give you the information as soon as it becomes available to us.

390

00:43:25.830 --> 00:43:27.120  
annmariequartironi: They might have any questions.

391  
00:43:27.450 --> 00:43:28.530  
Matt Landahl: You have a question. Suppose

392  
00:43:36.480 --> 00:43:36.960  
awhite: Are we

393  
00:43:37.890 --> 00:43:39.600  
Mike Rutkoske: Somebody who are waiting for a question.

394  
00:43:41.910 --> 00:43:46.170  
Mike Rutkoske: Okay, alright. So my first question is the pandemic adjustment.

395  
00:43:47.040 --> 00:43:47.850  
Mike Rutkoske: So if

396  
00:43:48.000 --> 00:44:05.310  
Mike Rutkoske: It's unclear what you said was that this state is reducing the amount that they are going to give the, the district by 724 or \$725,000 and that money will be offset by directly from the federal government from what the numbers show is that correct

397  
00:44:05.610 --> 00:44:06.180  
Craig Wolf: Yes.

398  
00:44:06.540 --> 00:44:07.800  
annmariequartironi: So the part of that.

399  
00:44:08.370 --> 00:44:19.140  
annmariequartironi: coven stimulus package went a lot of the money went to the school districts directly and not to the state and not to the state of New York. So our understanding is that

400  
00:44:20.160 --> 00:44:24.450  
annmariequartironi: New York State is taking away the amount that we're getting directly from the federal government.

401

00:44:25.980 --> 00:44:37.710

Mike Rutkoske: So it's the state adjust how much they maybe they'll maybe they'll give us some back or take some our way will the cares act restoration amount change do we think

402

00:44:38.490 --> 00:44:43.170

annmariequartironi: I don't think that the cares restoration will change. There are other avenues for us.

403

00:44:43.170 --> 00:44:43.530

annmariequartironi: To

404

00:44:43.680 --> 00:44:49.980

annmariequartironi: To explore. So Matt and I both sat on a webinar for FEMA, so there is FEMA money available.

405

00:44:50.550 --> 00:45:06.930

annmariequartironi: We were also told that there is money through child nutrition in New York State for some of the meals that we're we're giving. So there are other avenues to get revenue back. Um, it's just a matter of which which government is paid for, whether it be the state or the federal um

406

00:45:08.070 --> 00:45:09.270

Mike Rutkoske: It's interesting to look through

407

00:45:09.330 --> 00:45:11.820

annmariequartironi: April, just to see what he's going to do. I mean,

408

00:45:11.820 --> 00:45:14.250

annmariequartironi: Most, most of us knowing that we have

409

00:45:14.400 --> 00:45:16.830

annmariequartironi: Money left in this year's budget because we won't

410

00:45:16.830 --> 00:45:18.600

annmariequartironi: Expand all of the

411

00:45:18.990 --> 00:45:21.720

annmariequartironi: The amounts that we budgeted that we are trying

412

00:45:22.230 --> 00:45:23.190

Craig Wolf: To put

413

00:45:23.880 --> 00:45:30.660

annmariequartironi: as much money as we can in reserves and in fund balance. So in case the adjustment to state aid comes after July one.

414

00:45:31.050 --> 00:45:35.730

annmariequartironi: Will have a way to pay for our budget for 2021 so that's that's the goal.

415

00:45:35.970 --> 00:45:37.320

annmariequartironi: We're ready. Identifying

416

00:45:37.560 --> 00:45:39.210

annmariequartironi: Budget code areas where we could

417

00:45:39.390 --> 00:45:49.140

annmariequartironi: We know that we will not spend money and we're going to, you know, save it, put it into fund balance, put it into reserve so that we have money in case a reduction comes after July one.

418

00:45:50.790 --> 00:45:56.160

Mike Rutkoske: And along those lines with fund balance are they, allowing us to maintain a higher than I think 4%

419

00:45:57.420 --> 00:46:00.540

Mike Rutkoske: fund balance in order to be able to capture and collect these

420

00:46:01.410 --> 00:46:03.570

Mike Rutkoske: New York. I know New York State.

421

00:46:03.720 --> 00:46:20.040

annmariequartironi: As well is lobbying them for that and nothing official has come down. But in talking to other business officials that's that's the goal for us, um, you know, and maybe a management letter comment that we have more than 4% but that's small in comparison to

422

00:46:20.100 --> 00:46:20.670

Craig Wolf: Having

423

00:46:20.760 --> 00:46:24.750

annmariequartironi: The money to actually fund your, your budget. Once you get a reduction in state aid.

424

00:46:27.540 --> 00:46:37.140

Mike Rutkoske: In further, further Cures Act, or we maybe it's a current question, but are we applying for or allowed to do the payroll protection.

425

00:46:39.030 --> 00:46:41.220

Mike Rutkoske: The provision, the payroll protection.

426

00:46:41.220 --> 00:46:47.550

annmariequartironi: Provision is for small businesses and not for profits like 54501 c three s

427

00:46:48.180 --> 00:46:52.020

annmariequartironi: It does not apply to school districts and local municipalities.

428

00:46:53.760 --> 00:46:54.150

Craig Wolf: Okay.

429

00:46:57.420 --> 00:47:05.130

Mike Rutkoske: So is everybody you down being, you know, what's our payroll looking like right now just, I don't know what the statuses. So our payroll right

430

00:47:05.130 --> 00:47:05.550

Now,

431

00:47:06.690 --> 00:47:23.010

annmariequartironi: You'll see there's another resolution on the board. We are keeping people even to what they would be making. We are obviously you're not paying substitute employees on but we are paying hourly employees what their normal schedule would have been

432

00:47:23.430 --> 00:47:24.630

annmariequartironi: If we had school open

433

00:47:24.990 --> 00:47:30.540

annmariequartironi: And they're they're being paid for time that they normally would have work. So a time where

434

00:47:30.630 --> 00:47:33.900

annmariequartironi: We designated to be spring break, they would not be paid for.

435

00:47:33.900 --> 00:47:37.740

annmariequartironi: That that area, they would be just be paid for what they normally would have been

436

00:47:37.890 --> 00:47:38.580

annmariequartironi: Paid of score.

437

00:47:38.610 --> 00:47:38.970

Open

438

00:47:41.370 --> 00:47:41.820

Mike Rutkoske: Thank you.

439

00:47:44.220 --> 00:47:47.550

Mike Rutkoske: Other people have questions I have others, but my Kelly, can you just

440

00:47:47.700 --> 00:47:48.600

Mike Rutkoske: Share the screen.

441

00:47:49.110 --> 00:47:49.980

awhite: So I could see who

442

00:47:50.610 --> 00:47:51.000

Thanks.

443

00:47:55.470 --> 00:47:57.120

awhite: I don't have any questions about it.

444

00:47:58.710 --> 00:47:59.190

Craig Wolf: Anthony

445

00:48:02.910 --> 00:48:05.010

Craig Wolf: This has anybody I know that we're

446

00:48:05.100 --> 00:48:07.230

Kristan Flynn: We're basing this on assessments.

447

00:48:07.710 --> 00:48:09.420

Kristan Flynn: That I don't think will be

448

00:48:11.700 --> 00:48:13.170

Kristan Flynn: Accurate going forward.

449

00:48:13.530 --> 00:48:15.030

Kristan Flynn: So I think we'll probably

450

00:48:15.930 --> 00:48:18.690

Kristan Flynn: As soon as we have more information, think about things in

451

00:48:20.010 --> 00:48:22.530

Kristan Flynn: Probably like a three year plan.

452

00:48:22.770 --> 00:48:24.450

Kristan Flynn: At least if we want to maintain

453

00:48:26.850 --> 00:48:27.240

Kristan Flynn: Some of the

454

00:48:27.690 --> 00:48:29.490

Kristan Flynn: Some of the things that we've added

455

00:48:30.270 --> 00:48:32.040

Kristan Flynn: And avoid cuts are we

456

00:48:32.250 --> 00:48:37.560

Kristan Flynn: Able to get or have a plan to get any sort of updated information from

457

00:48:38.400 --> 00:48:42.480

Kristan Flynn: The assessors or do they only do that once a year, or is it possible for them to do an

458

00:48:42.480 --> 00:48:44.730

Kristan Flynn: Emergency assessment, even in the fall.

459

00:48:44.760 --> 00:48:45.420

Kelly: Or something.

460

00:48:46.080 --> 00:48:49.950

annmariequartironi: So we'll have the information in the summer on the assessments to do the

461

00:48:50.130 --> 00:48:52.170

annmariequartironi: To do the tax warrant. Um, but

462

00:48:52.230 --> 00:48:52.680

Antony Tseng: I don't

463

00:48:52.920 --> 00:48:54.510

annmariequartironi: Think, we'll have it before then.

464

00:48:55.050 --> 00:49:01.770

annmariequartironi: I'm not imagining, you know, the variable. What I can ask the city for is

465

00:49:02.040 --> 00:49:04.860

annmariequartironi: If they can give me an estimate of new properties that are going to come on the

466

00:49:04.860 --> 00:49:06.570

annmariequartironi: Tax roll, because that would actually help

467

00:49:06.570 --> 00:49:07.080

People

468

00:49:08.220 --> 00:49:10.770

annmariequartironi: Because the burden of the tax levy would be spread over

469

00:49:10.830 --> 00:49:13.170

annmariequartironi: More people, but I don't

470

00:49:13.470 --> 00:49:16.890

annmariequartironi: You know, I don't know if they could give me that information I can ask

471

00:49:19.080 --> 00:49:21.240

awhite: Anthony. You had your hand up. Yeah.

472

00:49:21.510 --> 00:49:26.490

Antony Tseng: So I had a question. The what I understand from the budget is that it was approved.

473

00:49:28.350 --> 00:49:31.950

Antony Tseng: With a three month revisit um

474

00:49:33.210 --> 00:49:42.960

Antony Tseng: I guess for the next year, but, um, is that accurate. What I understand it. And then, if so, what is the next word. The next deadline, where they're going to revisit the budget.

475

00:49:43.740 --> 00:49:50.460

annmariequartironi: So they're going to revisit the budget, the end of April, and then they're going to revisit it again at the end of June, and then they're going to revisit it again.

476

00:49:50.940 --> 00:49:52.290

annmariequartironi: I believe in September.

477

00:49:54.600 --> 00:49:56.640

Antony Tseng: Okay. So there's three other times where

478

00:49:57.840 --> 00:50:02.400

Antony Tseng: I'm potentially they can cut us, I guess. So, the important part for

479

00:50:02.430 --> 00:50:04.800

annmariequartironi: April is if we don't adopt the budget.

480

00:50:04.800 --> 00:50:08.880

annmariequartironi: For April, and we do get a cut. Then we decide whether we want to cut some

481

00:50:08.880 --> 00:50:11.610

annmariequartironi: Things from our budget or whether we want to use

482

00:50:11.730 --> 00:50:13.230

annmariequartironi: More on appropriated funds.

483

00:50:14.460 --> 00:50:19.050

annmariequartironi: So that's the question. So we don't you know we want to wait a little while longer, just to

484

00:50:19.050 --> 00:50:21.570

annmariequartironi: See if he makes the cut at the end of April.

485

00:50:22.020 --> 00:50:24.090

annmariequartironi: By the end of June, we would have to have

486

00:50:24.960 --> 00:50:26.940

annmariequartironi: Adopted the budget because July one is our

487

00:50:27.120 --> 00:50:28.380

annmariequartironi: Beginning of our fiscal year.

488

00:50:28.830 --> 00:50:30.810

annmariequartironi: So it's kind of a wait and see.

489

00:50:30.870 --> 00:50:36.240

annmariequartironi: We have no idea. I will say the Governor Cuomo starts every news conference by saying that

490

00:50:36.540 --> 00:50:39.480

annmariequartironi: The state is in really financial trouble so that your evening.

491

00:50:41.790 --> 00:50:42.180

Craig Wolf: Thank you.

492

00:50:43.740 --> 00:50:44.760

Antony Tseng: And yeah. Other questions.

493

00:50:47.460 --> 00:50:57.000

Mike Rutkoske: Me on the slide that shows the calculation with the base tax Bates growth factor and the allowable growth factor. Yes.

494

00:50:58.380 --> 00:50:59.520

meredithheuer: So, which

495

00:50:59.610 --> 00:51:09.630

Mike Rutkoske: So, which was which one of them is related to the tax cap and the other is related to the fact that city beacon, and the area is growing, which is which.

496

00:51:09.810 --> 00:51:12.750

annmariequartironi: The tax base growth factor is about beacon growing

497

00:51:12.960 --> 00:51:16.470

annmariequartironi: So that that factor allows beacons tax levy to grow.

498

00:51:16.470 --> 00:51:17.790

annmariequartironi: Because of

499

00:51:18.090 --> 00:51:22.590

annmariequartironi: New properties and that are coming on to the tax roll.

500

00:51:22.950 --> 00:51:26.700

annmariequartironi: The allowable growth factor is based on the Consumer Price Index.

501

00:51:27.120 --> 00:51:35.220

annmariequartironi: So this year, it's always either 2% the lower than, greater of 2% so actually the CPI was 1.8

502

00:51:36.630 --> 00:51:42.660

annmariequartironi: So that's what we had in December. So that's what we had to use I'm imagining the consumer price index will be much

503

00:51:42.750 --> 00:51:47.400

annmariequartironi: Less than 1.8 we've had years where it was actually negative

504

00:51:48.450 --> 00:51:53.280

annmariequartironi: So that these are all ways that you can increase your levy. That's what we're, we're a little bit worried about

505

00:51:53.880 --> 00:51:57.030

annmariequartironi: Because if you don't have those factors to grow your levy or levies.

506

00:51:57.210 --> 00:51:58.650

annmariequartironi: Pretty much flat from year to

507

00:51:58.650 --> 00:52:00.600

annmariequartironi: Year, but you also have, you know,

508

00:52:00.630 --> 00:52:02.130

annmariequartironi: When you're trying to do a budget you have

509

00:52:02.160 --> 00:52:03.030

annmariequartironi: Contractual

510

00:52:03.840 --> 00:52:05.640

annmariequartironi: Expenses that increase every year.

511

00:52:05.880 --> 00:52:08.790

annmariequartironi: So it's kind of hard. You want to make sure that the levy can grow.

512

00:52:08.820 --> 00:52:09.360

Craig Wolf: Enough.

513

00:52:09.600 --> 00:52:10.830

annmariequartironi: To pay your contractual

514

00:52:10.860 --> 00:52:11.790

annmariequartironi: Obligations

515

00:52:12.210 --> 00:52:12.990

The following year.

516

00:52:14.490 --> 00:52:32.940

Mike Rutkoske: So for the tax base growth factor. And we've had this for a number of years do have, we have we seen that the actual amount of what you call the different things. The, the grand list or the, the basis has in fact grown by that much every year.

517

00:52:34.680 --> 00:52:45.120

annmariequartironi: I think it's difficult to to quantify it that way because you're seeing when you get the assessments, especially last year. You saw changes in assessment of current property and you also saw a

518

00:52:45.270 --> 00:52:46.290

annmariequartironi: Few properties coming

519

00:52:46.320 --> 00:52:47.340

annmariequartironi: On to the tax roles.

520

00:52:50.370 --> 00:52:52.080

Mike Rutkoske: Right, right. So I'm

521

00:52:52.710 --> 00:53:07.110

Mike Rutkoske: Just concerned that with the change in economics. Who knows where this is going to play out that that we won't actually see this occur yet. And this will be increasingly borne by the current taxpayers.

522

00:53:08.610 --> 00:53:09.120

annmariequartironi: Um,

523

00:53:09.810 --> 00:53:15.630

annmariequartironi: We have seen a steady increase of properties coming on the role. So like if we were asked the city to run

524

00:53:16.320 --> 00:53:20.010

annmariequartironi: On grid numbers for us of what properties are added. There are

525

00:53:20.070 --> 00:53:20.400

Craig Wolf: You know,

526

00:53:20.430 --> 00:53:22.560

annmariequartironi: New properties that are helping

527

00:53:22.590 --> 00:53:23.910

annmariequartironi: Pay for the tax levy

528

00:53:24.690 --> 00:53:29.820

annmariequartironi: I think the bigger question last year was because some people's assessments went up and their taxes went up more

529

00:53:30.360 --> 00:53:31.470

annmariequartironi: Than what we had said.

530

00:53:31.770 --> 00:53:32.880

annmariequartironi: Considering our tax rate.

531

00:53:32.940 --> 00:53:33.420

annmariequartironi: Went down

532

00:53:33.720 --> 00:53:34.770

annmariequartironi: Because our tax rate has gone

533

00:53:34.770 --> 00:53:38.820

annmariequartironi: Down the last two to three years. So that means there's more properties to share it.

534

00:53:39.090 --> 00:53:39.360

With

535

00:53:41.100 --> 00:53:41.730

annmariequartironi: It's hard to

536

00:53:42.660 --> 00:53:44.310

Mike Rutkoske: Wait, like you know evenly.

537

00:53:44.340 --> 00:53:49.920

annmariequartironi: I I worry about this calculation only because this is the only way we can raise the

538

00:53:49.920 --> 00:53:50.310

annmariequartironi: lovey.

539

00:53:50.370 --> 00:53:53.640

annmariequartironi: Right. So that whole cow. I know it's not in front of you right now, but

540

00:53:54.000 --> 00:54:04.440

annmariequartironi: A tax calculations. Okay, we can raise the levy and if some of those factors are zero or or close to zero, then we don't have a lot of ability to

541

00:54:04.650 --> 00:54:05.790

annmariequartironi: Raise the levee

542

00:54:06.420 --> 00:54:11.070

annmariequartironi: And if he's playing around with our state aid that I'm kind of really worried about how we

543

00:54:11.220 --> 00:54:11.610

annmariequartironi: Make the

544

00:54:11.880 --> 00:54:12.930

annmariequartironi: Make the budget work.

545

00:54:14.640 --> 00:54:15.990

annmariequartironi: Well with the amount of money that

546

00:54:16.170 --> 00:54:22.890

Mike Rutkoske: When we know how much we're not going to spend out of this year and and could we, you know, kind of balance.

547

00:54:23.400 --> 00:54:29.700

Mike Rutkoske: Not increase the levy as much and utilize the under runs from this year in order to offset it in order that

548

00:54:30.000 --> 00:54:32.880

Mike Rutkoske: Because I'm just concerned that the taxpayers are

549

00:54:32.880 --> 00:54:37.410

Mike Rutkoske: Also maybe in various different situations. Due to this issue.

550

00:54:38.280 --> 00:54:44.400

annmariequartironi: So I can, we can quantify how much money. In fact, we started already doing that to try to quantify how much

551

00:54:44.430 --> 00:54:45.990

Mike Rutkoske: We would have in fund balance.

552

00:54:46.440 --> 00:54:48.090

annmariequartironi: On my only concern is

553

00:54:48.960 --> 00:54:50.250

annmariequartironi: Using it now.

554

00:54:50.550 --> 00:54:56.610

annmariequartironi: You know, to kind of not go up to the tax cap. I don't know if that would be, we won't know what a cut would be

555

00:54:56.820 --> 00:54:58.050

annmariequartironi: Coming, you know, in the

556

00:54:58.110 --> 00:55:06.240

annmariequartironi: In the measurement periods. I was thinking about putting as much into fund balance and reserves as I could to kind of hedge a cut.

557

00:55:06.600 --> 00:55:08.490

annmariequartironi: That we don't see coming because

558

00:55:08.670 --> 00:55:10.890

annmariequartironi: We won't know we won't know about some

559

00:55:10.890 --> 00:55:12.870

annmariequartironi: Of these cuts the one in June and the one over

560

00:55:12.870 --> 00:55:14.670

annmariequartironi: The summer, we will not know about

561

00:55:14.940 --> 00:55:16.680

annmariequartironi: Until after our budget is passed.

562

00:55:17.250 --> 00:55:17.760

annmariequartironi: And then

563

00:55:17.880 --> 00:55:20.880

annmariequartironi: It's kind of too late. Then if we don't go up to the tax cap.

564

00:55:20.880 --> 00:55:22.140

annmariequartironi: Then it's kind of too late.

565

00:55:22.350 --> 00:55:23.280

annmariequartironi: For us to do anything. I

566

00:55:23.880 --> 00:55:24.930

annmariequartironi: Mean I understand.

567

00:55:25.290 --> 00:55:26.520

annmariequartironi: You know, we want to be.

568

00:55:26.550 --> 00:55:28.500

annmariequartironi: Conscious of our taxpayers.

569

00:55:28.590 --> 00:55:30.750

annmariequartironi: And I know everybody's hurting in some way.

570

00:55:31.290 --> 00:55:31.740

Craig Wolf: Um,

571

00:55:32.160 --> 00:55:32.820

annmariequartironi: But I don't

572

00:55:33.900 --> 00:55:36.330

annmariequartironi: You know i i think this year.

573

00:55:36.960 --> 00:55:37.470

annmariequartironi: You know,

574

00:55:37.980 --> 00:55:46.560

annmariequartironi: We're not raising the levee that much. I think with the tax base growth factor and having more properties. I think that their taxes won't go up that much but

575

00:55:47.490 --> 00:55:50.640

annmariequartironi: I'm just worried I'm more worried about going forward than I am.

576

00:55:51.240 --> 00:55:55.020

annmariequartironi: This, this coming year. I mean, I'm actually worried about the Hereafter as well.

577

00:55:55.380 --> 00:56:03.120

annmariequartironi: Just because I don't know how quickly New York State if the federal government bails out New York State, which is another theme that was in in this webinar.

578

00:56:04.410 --> 00:56:08.280

annmariequartironi: Then, this might all be for not and we we might not have a problem with

579

00:56:08.280 --> 00:56:09.240

Craig Wolf: State aid.

580

00:56:09.360 --> 00:56:10.380

annmariequartironi: So I think that's where the

581

00:56:10.590 --> 00:56:11.820

annmariequartironi: Arguing is going back and forth.

582

00:56:11.820 --> 00:56:12.600

annmariequartironi: Between federal and

583

00:56:12.630 --> 00:56:13.260  
Mike Rutkoske: State government

584  
00:56:13.470 --> 00:56:17.430  
Kristan Flynn: Or if there's political will to increase taxes on the highest earners.

585  
00:56:20.940 --> 00:56:22.050  
meredithheuer: That we've seen so far.

586  
00:56:22.140 --> 00:56:23.250  
Mike Rutkoske: Not been discussed

587  
00:56:23.400 --> 00:56:24.450  
But I also think that

588  
00:56:25.500 --> 00:56:27.720  
meredithheuer: I see what you're saying. Mike, but I

589  
00:56:28.860 --> 00:56:38.520  
meredithheuer: I think that there is a different way to frame it, which is that, you know, what do we need to provide a sound education for our students and

590  
00:56:39.780 --> 00:56:44.820  
meredithheuer: I think it's important to give a real number there and

591  
00:56:46.050 --> 00:56:47.640  
meredithheuer: That you know so that we can

592  
00:56:48.390 --> 00:56:54.000  
meredithheuer: Tell everyone that you know they're they're all sorts of things happening right now, the bailouts and the

593  
00:56:54.360 --> 00:57:06.690  
meredithheuer: Pay Bills are ongoing. And I think that they will be ongoing for a while. And so to undermine our budget and right now I think it gives a false sense of what it costs to run the district.

594  
00:57:11.310 --> 00:57:12.330

awhite: I think there's i'm not i'm not

595

00:57:13.980 --> 00:57:30.900

Mike Rutkoske: Talking about undermining anything but really we need to do our part, everybody else's, you know, struggling or, you know, our challenge. And maybe we need to show we could do our part, we've added quite a bit of programming personnel and really looking at how to streamline and utilize

596

00:57:30.900 --> 00:57:37.080

Mike Rutkoske: What we have maybe a good. This may be a good way to show that we can we can do that, that we're at that point to do that.

597

00:57:37.380 --> 00:57:44.310

meredithheuer: Isn't that what this budget does. I mean, we were no we're we're stopping the expansion that we had planned earlier in the year before this team.

598

00:57:44.580 --> 00:57:46.410

meredithheuer: We don't want to cut programming, because

599

00:57:46.440 --> 00:57:50.160

meredithheuer: We're still not up to the kind of programming that many other districts have

600

00:57:56.190 --> 00:57:57.510

Kelly: We're we are

601

00:57:57.930 --> 00:58:03.780

Mike Rutkoske: I think what we just saw that are are levy increase would be over 3% 3.2% so that's

602

00:58:04.950 --> 00:58:14.310

Mike Rutkoske: that's higher than the than the other districts that only have to live within the tax cap. So that's what I'm just challenging us to see. Should we

603

00:58:15.390 --> 00:58:24.060

Mike Rutkoske: You know, take a break from the growth factor this year and and streamline with what we have to do our part for the for our taxpayers.

604

00:58:28.530 --> 00:58:32.250

awhite: My personal opinion on that, as I think there could be some long term

impacts to that.

605

00:58:32.640 --> 00:58:36.150

awhite: Because it's not that you're losing the money just for the next year when you go up to the

606

00:58:36.990 --> 00:58:46.410

awhite: Allowable growth. The tax growth, but then it. That's a ripple effect over many years. There's a domino effect that the years that you're not going to go up as high again and so forth and

607

00:58:46.830 --> 00:58:50.880

awhite: Projecting I don't think this is the 2021 school year is going to be an issue with the

608

00:58:51.780 --> 00:58:58.230

awhite: With the aid, but the 2122 school year, I think, is going to be the bigger issue just because there's going to be some long term impact.

609

00:58:59.070 --> 00:59:02.580

awhite: And you know that long term. You don't want to impact the students education.

610

00:59:03.420 --> 00:59:11.490

awhite: Because then, then you go into that domino effect, whereas you take money out of education. And I think that we're doing some really good things in the community right now.

611

00:59:11.850 --> 00:59:23.340

awhite: Arm and it's because we're in a good spot and we have the reserves and and are being fiscally responsible, such as the meals and coordination of that the Chromebooks. So one on one. We did that without the smart bonds.

612

00:59:23.760 --> 00:59:29.760

awhite: sparked by money and and having to be able to do that to get us up to the technology. Thank goodness that happened prior to this.

613

00:59:30.780 --> 00:59:46.200

awhite: Pandemic happening because we would be lost if we didn't have that one to one piece. And that took some innovation to do that and stuff so I i I'm very cautious about not going up to the tax tab. But I think it's definitely warranted.

614

00:59:47.670 --> 00:59:49.140

Craig Wolf: I agree with what

615

00:59:50.370 --> 01:00:01.500

Craig Wolf: Anthony white is saying very strongly. We should always go up to the tech stuff because you never get it back if you give it up, he will only start from the lower base from dead on forever.

616

01:00:05.100 --> 01:00:06.270

James Case-Leal: Have questions. Can you all hear me.

617

01:00:06.810 --> 01:00:09.900

James Case-Leal: Yep. What happened is, do we have for

618

01:00:11.820 --> 01:00:15.930

James Case-Leal: Advocacy on either to appeal directors, the governor saying

619

01:00:17.670 --> 01:00:29.940

James Case-Leal: That this is the wrong time to making cuts to education, maybe reaching out to Jonathan Jacobson, see what kind of African see he has we're passing resolution, we do not agree with making these kind of cuts.

620

01:00:31.350 --> 01:00:46.740

meredithheuer: I totally agree with you, James and I think is actually really important to understand that this is actually a cut, you know, flat budget from last year is a cut our expenses have gone up TRS went up quite a bit. Um, I've been personally writing our representatives.

621

01:00:47.190 --> 01:00:49.080

Antony Tseng: At least once a week. But I think a board.

622

01:00:49.080 --> 01:01:00.930

meredithheuer: Resolution or board letter would be really good. And I think also collecting some of the challenges that we face right now, educating students and what we project to, you know, in the fall, even if we're going back to school normally

623

01:01:01.290 --> 01:01:10.140

meredithheuer: We're going to have kids who have not been in school for a long time.

We're going to have, you know, a lot of kids that need extra attention for a variety of reasons. So I think

624

01:01:10.500 --> 01:01:18.810

meredithheuer: Trying to collect some of those stories and share those concerns would be really important I think this has been doing a great job.

625

01:01:19.080 --> 01:01:29.100

meredithheuer: I think their webinars have been super informative and they've been great about informing us about what's going on, but that personal toll has not been told. And it's, it's very, very real.

626

01:01:32.070 --> 01:01:44.070

Antony Tseng: Does Anthony have an objection telling Assemblyman Jacobson, I guess where we're at and our senator as well stay center as well. But I'm from what I understood I did hear

627

01:01:45.630 --> 01:01:52.860

Antony Tseng: Some lemon Jacobson speak about this issue about the budget, and there were cuts and various different places.

628

01:01:53.520 --> 01:01:55.410

Craig Wolf: Um, but they didn't

629

01:01:55.470 --> 01:02:02.790

Antony Tseng: Cut. So in their eyes. They kept budget flat of the school this for the schools. They didn't

630

01:02:04.440 --> 01:02:06.000

Craig Wolf: In lieu. So I guess the choice.

631

01:02:06.000 --> 01:02:09.660

Antony Tseng: Was increase keep it flat or decrease

632

01:02:10.980 --> 01:02:14.370

Antony Tseng: And they chose flat, obviously. So I think, I think.

633

01:02:14.850 --> 01:02:20.130

Kristan Flynn: The tricky thing about that, which is, I think, Meredith was saying is I think that is

634

01:02:21.900 --> 01:02:22.950

Craig Wolf: Lawmakers and

635

01:02:23.130 --> 01:02:25.770

Kristan Flynn: Opportunity to say we didn't

636

01:02:26.160 --> 01:02:27.840

Kristan Flynn: We didn't cut but

637

01:02:27.870 --> 01:02:31.740

Kristan Flynn: We know from putting these budgets together that our expenses go up.

638

01:02:32.130 --> 01:02:33.780

Kristan Flynn: And so anything that remains

639

01:02:33.780 --> 01:02:34.230

Kristan Flynn: Flat

640

01:02:34.590 --> 01:02:39.660

Kristan Flynn: Is in effect a cut in how it actually rolls out and so

641

01:02:40.560 --> 01:02:42.780

Kristan Flynn: I think it's very important that we

642

01:02:43.500 --> 01:02:45.000

Kristan Flynn: Correct that perception.

643

01:02:45.180 --> 01:02:47.490

Kristan Flynn: I it's fine if they did the best they could.

644

01:02:48.060 --> 01:02:49.590

Craig Wolf: But we can't let this

645

01:02:49.590 --> 01:02:50.490

Perception.

646

01:02:51.630 --> 01:02:56.250

Kristan Flynn: You know, remain will be battling against this for years to come.

647

01:02:56.370 --> 01:02:57.060

Kristan Flynn: About this

648

01:02:57.660 --> 01:03:01.500

Kristan Flynn: You know, flat budget, we need to be honest about what this means. It means that

649

01:03:01.830 --> 01:03:05.280

Kristan Flynn: More money is going to the pension and benefit.

650

01:03:05.520 --> 01:03:07.380

Kristan Flynn: You know, draw

651

01:03:07.770 --> 01:03:15.660

Kristan Flynn: Which is a is a promise that we that that we're committed to that increases. That means less money goes to kids.

652

01:03:16.560 --> 01:03:17.700

Kristan Flynn: And funding programs.

653

01:03:18.660 --> 01:03:20.400

Kristan Flynn: And so that's

654

01:03:20.910 --> 01:03:22.440

Kristan Flynn: You know, we still are able to meet our

655

01:03:22.440 --> 01:03:28.200

Kristan Flynn: Obligations but it's not by no means is it, is it not a cut in education funding.

656

01:03:30.750 --> 01:03:31.170

I agree.

657

01:03:33.030 --> 01:03:34.980

awhite: Matt, did you have anything else with the workshop

658

01:03:37.980 --> 01:03:40.260

Mike Rutkoske: I did have one more thing I wanted to ask

659

01:03:41.970 --> 01:03:51.060

Mike Rutkoske: So I i'm not i'm not saying to that we should cut out the growth factor. What I'm, what I'm challenging us is to, you know, understand

660

01:03:52.320 --> 01:03:58.470

Mike Rutkoske: What, you know, what if we don't see the increase in the you know the growth of the tech space.

661

01:03:59.280 --> 01:04:02.130

Antony Tseng: Maybe we'll get a better view. By the time we

662

01:04:02.610 --> 01:04:06.450

Mike Rutkoske: Do adopt the budget to see if that's going to be an issue or not, but

663

01:04:07.680 --> 01:04:15.090

Mike Rutkoske: If we if we base it on this growth factor, and then it doesn't come around. It really is going to have a negative impact on on the taxpayers, we might be

664

01:04:15.420 --> 01:04:27.000

Mike Rutkoske: Challenged already not looking at cutting cutting funding for kids and not supporting education, man. We've done that all the years but really trying to be sensitive to the situation.

665

01:04:29.040 --> 01:04:29.700

awhite: I understand that.

666

01:04:30.570 --> 01:04:32.010

Kristan Flynn: I didn't mean to imply that either make I

667

01:04:32.010 --> 01:04:40.350

Kristan Flynn: Think that that I understand what you're saying. I just think that we have a lot of millionaires and billionaires in New York State. And before we worry about

668

01:04:42.060 --> 01:04:54.450

Kristan Flynn: You know, middle income community taking a hit and losing programming for kids. We should probably advocate that the governor look at other revenue opportunities within the state.

669

01:04:56.250 --> 01:04:56.790

Kristan Flynn: Oh, yeah.

670

01:04:57.540 --> 01:05:01.920

Mike Rutkoske: No absolutely that appear on the state side yeah that to fund us appropriately.

671

01:05:03.120 --> 01:05:14.580

Mike Rutkoske: Right. We have a great team. We have a great plan. And I think that we can do some streamlining with with what we have and continue to improve. So that's where you need to be challenged that sometimes. So that's what I'm doing.

672

01:05:16.320 --> 01:05:18.120

Mike Rutkoske: All right, that's all, that's all I have.

673

01:05:19.140 --> 01:05:19.710

Mike Rutkoske: Thank you.

674

01:05:20.610 --> 01:05:29.220

awhite: Matt, did you have anything else for the workshop yeah alright so reviewing the agenda, we do have an open to the public DISA, we're going to try. So if there's anybody on the

675

01:05:30.300 --> 01:05:38.910

awhite: Web that has a question, if you could please type it in the chat and then Mike Kelly will unmute you. So you could say it to

676

01:05:40.200 --> 01:05:41.130

awhite: To the public

677

01:06:19.980 --> 01:06:21.180

Antony Tseng: Three dots or anything or

678

01:06:21.600 --> 01:06:33.630

awhite: No, that's come on I was gonna say, I'm looking, is anybody been flying. I don't see anything. So I was gonna move forward. Mike, do you see anything on your

end, as the host

679

01:06:36.720 --> 01:06:37.110

Michael Kealy: Know,

680

01:06:38.880 --> 01:06:43.620

awhite: Alright, so we're gonna go on from the public comment. And we're going to go to the superintendent's report.

681

01:06:43.860 --> 01:06:45.750

awhite: So I'm going to terminal. Terminal to

682

01:06:46.800 --> 01:06:47.790

awhite: Do the superintendent's report.

683

01:06:48.330 --> 01:06:51.180

Matt Landahl: Sure, I'll be quick tonight. I just have a few things.

684

01:06:52.200 --> 01:07:03.540

Matt Landahl: I want to update everybody on one is, you know, like I said at the last meeting, we've been focused on a few key things the food program has expanded since the last board meeting.

685

01:07:04.050 --> 01:07:07.650

Craig Wolf: We are now serving on Mondays and Wednesdays.

686

01:07:07.650 --> 01:07:09.600

Matt Landahl: Multiple meals and we're serving

687

01:07:10.530 --> 01:07:14.250

Matt Landahl: Close somewhere between 900 and 1000 kids.

688

01:07:14.640 --> 01:07:29.400

Matt Landahl: At each time. And so that's been a dramatic increase since the board meeting our last board meeting where we are serving about 300 kids we now we added a delivery options. So we're delivering to close to 100 families as well.

689

01:07:30.540 --> 01:07:36.660

Matt Landahl: With our buses and we have, you know, different employees who are

volunteering, either at the

690

01:07:37.770 --> 01:07:55.380

Matt Landahl: At the pickup spots or at the delivery part. So that's been great. We've also been able to partner with the number of community organizations fairground beacon mutual aid common ground farm. The touches County Food Bank and fairground has been doing dinner.

691

01:07:56.460 --> 01:07:58.740

Matt Landahl: Dinner bags for families and

692

01:08:01.260 --> 01:08:08.610

Matt Landahl: And and then on Wednesdays. Now we have this free free groceries, it's really for beyond our families, but just for the whole community.

693

01:08:08.940 --> 01:08:11.310

Matt Landahl: That we've linked it up with our meals program so

694

01:08:11.370 --> 01:08:11.910

Craig Wolf: It's been

695

01:08:12.690 --> 01:08:14.640

Matt Landahl: It's been a big success for us and

696

01:08:15.180 --> 01:08:21.990

Matt Landahl: Just a huge thanks to Karen piano and Ron Mackey for Karen for making the meals happened with her staff.

697

01:08:22.470 --> 01:08:23.940

Matt Landahl: Amazing people. And Ron

698

01:08:24.570 --> 01:08:28.410

Matt Landahl: Basically is changing and adding to his routes every single week.

699

01:08:29.730 --> 01:08:35.520

Matt Landahl: Because we keep adding folks to the delivery as circumstances change for people. So just

700

01:08:35.520 --> 01:08:36.450

Big thanks to them.

701

01:08:37.530 --> 01:08:38.940

Matt Landahl: Our distance learning we kind

702

01:08:38.940 --> 01:08:56.670

Matt Landahl: Of launched, we launched a little bit more revamped version of distance learning on April 1 and I think it's going been going reasonably well. And so we actually met. We had a kind of a large group of administrators and teachers about 20 people on a committee.

703

01:08:57.240 --> 01:09:01.380

Matt Landahl: And the committee has some smaller groups that meet, but we met again.

704

01:09:01.710 --> 01:09:04.320

Matt Landahl: They we met several weeks ago to design this plan.

705

01:09:04.740 --> 01:09:08.520

Matt Landahl: And we actually met today to kind of debrief and see what changes. We're going to make

706

01:09:08.880 --> 01:09:17.100

Matt Landahl: And so the the main thing we're going to be coming out. And I think this impacts our middle and high school students more that elementary for sure is will be sharing

707

01:09:17.160 --> 01:09:18.240

Craig Wolf: Our grading.

708

01:09:18.690 --> 01:09:19.260

Matt Landahl: How we're going to

709

01:09:19.470 --> 01:09:22.290

Matt Landahl: Do grades for this fourth quarter.

710

01:09:22.650 --> 01:09:28.140

Matt Landahl: And so we're going to have a few more meetings this week and then share with parents early next week what our grading.

711

01:09:28.140 --> 01:09:36.000

Matt Landahl: Plans for fourth quarter. We're going to be really guided by some of our, you know, key beliefs with this and that's compassionate understanding

712

01:09:36.540 --> 01:09:55.710

Matt Landahl: And so we're going to try to create a create a grading system that that really tries to look at what families and kids are going through right now, but yet does hold them to some expectations as well. And so, so that will be coming out soon. Another thing we've been working on is wi

713

01:09:55.710 --> 01:09:59.670

Matt Landahl: Fi. And so my Keely, and

714

01:10:00.150 --> 01:10:01.950

Matt Landahl: Then check and I'm

715

01:10:02.490 --> 01:10:04.830

Matt Landahl: Probably some others were involved today. So we do have

716

01:10:04.830 --> 01:10:07.920

Matt Landahl: Wi Fi and I'll inform the community of this tomorrow.

717

01:10:08.250 --> 01:10:10.170

Matt Landahl: We do have Wi Fi in all of our school

718

01:10:10.950 --> 01:10:18.450

Matt Landahl: parking lots, which I know it's not ideal, but at least it's like another way that people could connect to Wi Fi. We got some great news this week.

719

01:10:18.750 --> 01:10:28.740

Matt Landahl: We found two companies that are able to ship hotspots to us. And so one is able to do it a little bit more quickly. So we're hoping that we get at least the first installment of hotspots.

720

01:10:29.490 --> 01:10:46.500

Matt Landahl: From one company next week because we do, we do have a number of families identified that needs support with Wi Fi. And then the second company we're working with probably in about three, three to four weeks, hopefully on the three side will be able to ship somehow spouse to us as well.

721

01:10:47.850 --> 01:10:48.480

Matt Landahl: So,

722

01:10:48.870 --> 01:10:50.670

Matt Landahl: We're really trying to work hard.

723

01:10:51.210 --> 01:10:51.900

To

724

01:10:53.640 --> 01:10:56.640

Matt Landahl: You know, to meet people's needs during this time we are

725

01:10:56.760 --> 01:10:58.170

Matt Landahl: Having lots of meetings.

726

01:10:58.410 --> 01:10:59.430

Matt Landahl: Virtually with

727

01:11:00.720 --> 01:11:01.050

Craig Wolf: With

728

01:11:01.080 --> 01:11:08.400

Matt Landahl: You know, each schools, having meetings principals and teachers and then we at the at my level have meetings with people across the district.

729

01:11:08.760 --> 01:11:10.380

Matt Landahl: Trying to fine tune what we're doing.

730

01:11:11.730 --> 01:11:15.240

Matt Landahl: It goes without saying that we'd much much much rather be at school.

731

01:11:15.630 --> 01:11:20.490

Matt Landahl: Right now, and that distance learning is not you know what we all signed up for. But we're making the best of it.

732

01:11:20.910 --> 01:11:22.530

Matt Landahl: And we're trying to

733

01:11:22.950 --> 01:11:24.660

Matt Landahl: Also plan right now for every

734

01:11:24.660 --> 01:11:28.650

Matt Landahl: Contingency and which, which is a struggle because we

735

01:11:28.890 --> 01:11:29.610

Matt Landahl: You know know

736

01:11:29.760 --> 01:11:32.490

Matt Landahl: The same thing that everyone else knows that there's a lot of questions.

737

01:11:32.880 --> 01:11:38.550

Matt Landahl: So, so we're working hard and we're trying to just every day.

738

01:11:38.610 --> 01:11:47.490

Matt Landahl: Sort of work out more logistical issues, either with food or the learning side and but but a lot of people across the district.

739

01:11:48.390 --> 01:11:55.140

Matt Landahl: From, from every position have stepped up and and I also just want to say a huge thank you to the community.

740

01:11:55.680 --> 01:12:06.960

Matt Landahl: For being supportive of the district during this time and and I say every time, every chance I get like if people have need help with something please to reach out to me or their

741

01:12:07.860 --> 01:12:17.130

Matt Landahl: Or their child's principal or their child's teacher and we will try to connect families or help them ourselves whenever we can, but that's it. Anthony

742

01:12:17.670 --> 01:12:19.560

awhite: Right. Great. Any questions for Matt.

743

01:12:22.830 --> 01:12:23.910

James Case-Leal: I have a question.

744

01:12:24.570 --> 01:12:34.320

James Case-Leal: Okay. Um, well first off, man. I just want to say thank you for everything you your administrative team and all of our teachers are doing right now it's kind of

745

01:12:35.070 --> 01:12:45.600

James Case-Leal: unfathomable as soon as an educator myself. I have one class to deal with and you're dealing with the sensors that amazing, particularly on the academic side something I've been

746

01:12:46.350 --> 01:13:00.510

James Case-Leal: Thinking about a lot is about the sort of emotional side or students are going through and how we're responding to that on the more acute scale I'm reading articles all the time about upticks in domestic violence.

747

01:13:02.550 --> 01:13:16.830

James Case-Leal: Obviously tensions are high was involved tell homes can make it more severe taken out on children. Um, but I also think about how our teachers and counselors are mandated reporters and they're seeing children every day, typically

748

01:13:18.690 --> 01:13:27.630

James Case-Leal: A LITTLE CONCERNED just sort of, if we have any kind of or misbah has any recommendations or if we have any protocol for thinking about how to check in with kids remotely.

749

01:13:28.860 --> 01:13:32.730

James Case-Leal: Certainly on the more acute. We're talking about iOS, but even just in general.

750

01:13:34.080 --> 01:13:39.090

James Case-Leal: There's any kind of strategy for how to reach out to kids not an academic sense but in

751

01:13:39.510 --> 01:13:39.870

Sure.

752

01:13:41.760 --> 01:13:47.940

Matt Landahl: I think the main thing is just to do it. And so our social workers and

753

01:13:48.960 --> 01:14:04.530

Matt Landahl: guidance counselors and psychologists, not that. It's just on them,

but they've been doing reaching out with hundreds of kids, since this started just trying to connect and check in and quite honestly I think most of our teachers are doing the same. You know, when we

754

01:14:04.830 --> 01:14:07.140

Matt Landahl: Entered into this, we really focused on

755

01:14:07.140 --> 01:14:16.170

Matt Landahl: Connecting and and not just focused on getting work done and a lot of teachers have really adopted that in our are also trying to check in on kids.

756

01:14:16.470 --> 01:14:20.970

Matt Landahl: So we don't necessarily have like a set protocol, but we are relentlessly trying to check in.

757

01:14:21.030 --> 01:14:22.350

Matt Landahl: With kids and also

758

01:14:23.700 --> 01:14:28.290

Matt Landahl: The administrators in each building basically have a running list of families.

759

01:14:28.590 --> 01:14:38.310

Matt Landahl: And kids that they haven't heard from in a few days, and those are the ones that were doubling back on to make sure that they're doing. Okay. And so each each school

760

01:14:39.750 --> 01:14:40.590

Matt Landahl: You know, has

761

01:14:41.070 --> 01:14:42.720

Matt Landahl: I guess spreadsheets of like

762

01:14:42.750 --> 01:14:44.070

Matt Landahl: You know, just sort of listening.

763

01:14:45.150 --> 01:14:56.010

Matt Landahl: concerns with families also families that need much more regular check ins and and each teacher is really keeping an eye for for this as well.

764

01:14:56.400 --> 01:15:00.840

Matt Landahl: And so that's a great question. I think it's the most important thing right now and and

765

01:15:02.340 --> 01:15:05.610

Matt Landahl: And everybody's feeling it in one way or the other. And so I think

766

01:15:08.010 --> 01:15:09.630

Craig Wolf: It makes it harder in some regards, but it

767

01:15:09.630 --> 01:15:23.100

Matt Landahl: also makes it easier for us to see because every family's going through at every one of our employees, having some sort of struggle. I'm sure at home as well. And so it makes us and I hope and I think it makes us more sensitive to it.

768

01:15:24.210 --> 01:15:28.200

Matt Landahl: So we're really trying, and we meet very, very frequently with

769

01:15:28.290 --> 01:15:29.520

Matt Landahl: Our principals.

770

01:15:29.910 --> 01:15:31.410

Matt Landahl: And they meet with their

771

01:15:31.500 --> 01:15:35.370

Matt Landahl: You know care teams in the building just just always checking on

772

01:15:35.370 --> 01:15:37.350

Matt Landahl: Kids. That's our main focus right now is

773

01:15:37.890 --> 01:15:42.420

Matt Landahl: Is kind of the folks were worried about and the and just constantly trying to reconnect.

774

01:15:43.650 --> 01:15:44.100

James Case-Leal: Thank you.

775

01:15:45.780 --> 01:15:46.800  
awhite: Any other questions for Matt.

776  
01:15:48.930 --> 01:15:49.290  
Craig Wolf: One.

777  
01:15:50.340 --> 01:15:54.030  
Craig Wolf: Of the wonderful cool we have called Power school

778  
01:15:55.980 --> 01:16:00.150  
Craig Wolf: Can't see in my own case my students case anyway.

779  
01:16:01.320 --> 01:16:12.450  
Craig Wolf: Most teachers are not updating that I'm wondering if we're missing an opportunity or whether it's feasible for them to do so. I think maybe one of the ones that I'm familiar with doing that.

780  
01:16:14.010 --> 01:16:25.470  
Craig Wolf: But it's one of those things is, frankly, I miss you. We don't have the kind of contact that we did back when school is in session and people seem to be updating

781  
01:16:26.310 --> 01:16:40.980  
Craig Wolf: All stuff. We have a realize that there's some changes in grading and how would he do marketing and so on. Could you discuss that. Please bring us up to date as to where we are, where it looks like we're going to the extent that you know

782  
01:16:41.490 --> 01:16:46.440  
Matt Landahl: Sure. No, I think our delay and using that centers can put down what you said is centers on

783  
01:16:47.010 --> 01:16:56.160  
Matt Landahl: The grading piece. And so we had a good meeting about grading today and we're going to have two more meetings this week to try to finalize it and

784  
01:16:56.730 --> 01:17:04.200  
Matt Landahl: You know what, what, each with teachers at each level talked about today was creating something that's very

785  
01:17:04.980 --> 01:17:13.980

Matt Landahl: Sensitive to my kids are going through, but also communicates to parents in some regard maybe not what it's looked like in the past, but like, whether they're

786

01:17:14.370 --> 01:17:24.870

Matt Landahl: Approaching expectations meeting expectations are going beyond expectations. And so I think once we get that set we'll probably see more updates in the traditional manner, but I think most teachers have been

787

01:17:25.380 --> 01:17:33.900

Matt Landahl: very hesitant to start grading. I think their main focus has been just making sure and working with kids to just log on and to connect

788

01:17:34.290 --> 01:17:43.560

Matt Landahl: And so once we get the grading system set, you'll probably see some more updates. I'm imagining on that level, although I don't think it will look like it look like in the past.

789

01:17:44.790 --> 01:17:52.860

Matt Landahl: You know, the teachers are using Google Classroom pretty much exclusively as a way to communicate with the students then and

790

01:17:54.060 --> 01:17:59.610

Matt Landahl: So I think once grading happens, there'll be some updates their powers, a little bit. I don't think it will look exactly like it looked

791

01:18:02.280 --> 01:18:02.640

Thank you.

792

01:18:04.290 --> 01:18:04.650

Craig Wolf: All right.

793

01:18:04.920 --> 01:18:10.170

awhite: See no other questions. I'm going to move to committee reports including your comments.

794

01:18:10.230 --> 01:18:11.850

awhite: So I'll start with

795

01:18:13.020 --> 01:18:14.280

awhite: Kristin with facilities.

796

01:18:16.200 --> 01:18:33.180

Kristan Flynn: I think we're going to plan a meeting, possibly next week to discuss some changes and staffing at the engineering architect firm that we awarded on our contract to after our search. And just to kind of see

797

01:18:34.830 --> 01:18:50.280

Kristan Flynn: Where we go from there. If we're going to, you know, just kind of discuss how that impacts our plans going forward, and maybe just even have some sort of way to touch base about planning for the capital project. And what that even looks like now.

798

01:18:52.110 --> 01:18:52.740

Kristan Flynn: And

799

01:18:54.960 --> 01:19:04.770

Kristan Flynn: I just wanted to. Yeah, that's all I have for all that, you know, like, once we get that scheduled. I don't think we have even a tentative time not to be talking about a tentative time for that to happen.

800

01:19:05.460 --> 01:19:09.570

Matt Landahl: It's I'm wide open. So whatever you guys come up with sign with me.

801

01:19:10.350 --> 01:19:11.970

Kristan Flynn: Okay, I'll reach out and try to

802

01:19:13.230 --> 01:19:15.720

Kristan Flynn: Find out everyone's schedule and we'll get something

803

01:19:17.850 --> 01:19:19.350

Kristan Flynn: get something going. Is anybody

804

01:19:20.490 --> 01:19:21.900

Kristan Flynn: Object to meeting during the day.

805

01:19:22.020 --> 01:19:22.410

At all.

806

01:19:23.490 --> 01:19:24.840  
awhite: I would just need to know

807  
01:19:25.920 --> 01:19:26.790  
awhite: A cup like

808  
01:19:26.820 --> 01:19:29.430  
awhite: A couple days ahead of time just to make sure I don't have any other meetings.

809  
01:19:29.520 --> 01:19:34.590  
awhite: Yeah day i'm not i'm not objecting to it. I would just need to like a week. Notice

810  
01:19:35.640 --> 01:19:35.910  
Kristan Flynn: Okay.

811  
01:19:37.080 --> 01:19:46.320  
Mike Rutkoske: Here I would still still working full out. So I would still prefer the evening, you know, Wednesday, even six o'clock would be fine.

812  
01:19:47.760 --> 01:19:49.650  
Mike Rutkoske: Earlier than normal would work for me.

813  
01:19:54.360 --> 01:19:55.290  
Pretty much anytime

814  
01:19:56.940 --> 01:19:57.240  
Kristan Flynn: Okay.

815  
01:20:01.140 --> 01:20:15.720  
Kristan Flynn: Okay, yeah, I am. I was I'm trying to consolidate everything just having my kids here all the time. I'm working full time and trying to pay attention to them. So I've been trying to limit my nighttime stuff, but that's fine six o'clock should be good. All right, I'll get an email out to everybody.

816  
01:20:17.010 --> 01:20:23.070  
Kristan Flynn: And just wanted to echo the sentiments that were shared about how really proud I am of

817

01:20:25.170 --> 01:20:37.380

Kristan Flynn: The leadership Matt and the administrators have shown and the incredible staff, and I think that the priority has been in the right place, which is holding the community together and first and then

818

01:20:38.760 --> 01:20:55.590

Kristan Flynn: I think that this is just a big blow, and it is I think a lot of our kids in some and a lot of us are going through a form of grief right now. So it's very hard to be task driven when you feel like there's, there's a lot of loss and

819

01:20:57.060 --> 01:21:07.830

Kristan Flynn: And so I feel like really support supporting each other and showing what that looks like is a big lesson to come out of this and that informs the resiliency of a community and

820

01:21:08.850 --> 01:21:10.620

Kristan Flynn: So thank you for for that.

821

01:21:12.390 --> 01:21:12.780

Kristan Flynn: That's all.

822

01:21:13.020 --> 01:21:13.710

awhite: Your Christian

823

01:21:15.510 --> 01:21:17.190

awhite: Thank you. Kristen. We're going to go to Jane Smith.

824

01:21:20.190 --> 01:21:22.980

James Case-Leal: I um, I wanted to begin by

825

01:21:23.730 --> 01:21:25.350

James Case-Leal: Echoing what Chris was saying and I

826

01:21:25.380 --> 01:21:32.640

James Case-Leal: Probably said it before, I don't think you'd be said enough. It's just thank you to all of our administrators, of course, into your leadership, it's

827

01:21:33.480 --> 01:21:51.510

James Case-Leal: an invaluable time and we've really handled it so well, but also to

our food services care Pagano. Her whole team. I've been out there with fairground handing out bags and it's just really inspiring and incredible to see what a service. The school is is being to

828

01:21:51.600 --> 01:21:52.800

Craig Wolf: Our whole community and

829

01:21:52.980 --> 01:21:54.300

James Case-Leal: Talk to people individually.

830

01:21:54.630 --> 01:21:56.460

James Case-Leal: Who have lost their work.

831

01:21:56.550 --> 01:22:00.720

James Case-Leal: And they can't go to the grocery store and they can't afford along this food. They say that

832

01:22:01.740 --> 01:22:04.170

James Case-Leal: To really get through based on

833

01:22:04.920 --> 01:22:06.810

James Case-Leal: The schools are doing the volunteer group.

834

01:22:06.810 --> 01:22:07.830

James Case-Leal: So thanks to everyone.

835

01:22:08.430 --> 01:22:10.290

James Case-Leal: For teachers. It's really incredible.

836

01:22:11.220 --> 01:22:12.030

I'm

837

01:22:13.290 --> 01:22:16.710

awhite: James, can you hold on one second. Can you mute yourself. We're getting background from you.

838

01:22:18.870 --> 01:22:19.560

Craig Wolf: How does that better.

839

01:22:21.810 --> 01:22:22.650

awhite: We could try it. Go ahead.

840

01:22:23.460 --> 01:22:28.350

James Case-Leal: Okay, um, for our policy committee, you know we we miss we postponed or

841

01:22:29.400 --> 01:22:30.810

James Case-Leal: We cancelled the last meeting it

842

01:22:30.810 --> 01:22:36.180

James Case-Leal: Was an extra meeting anyway that we're trying to squeeze in the next one is scheduled to be

843

01:22:38.250 --> 01:22:39.960

James Case-Leal: On the fourth of May.

844

01:22:42.570 --> 01:22:45.660

James Case-Leal: Matt, I wanted to, I don't want to add any more to all

845

01:22:45.780 --> 01:22:51.210

Matt Landahl: No, no, I, I have some policies. I was going to just briefly look at him and then send them your way. So,

846

01:22:51.240 --> 01:22:52.230

Craig Wolf: We're ready to go. Ready.

847

01:22:52.470 --> 01:22:56.190

James Case-Leal: Before. Okay, excellent then send them our way and we look forward to that.

848

01:22:56.520 --> 01:23:01.920

James Case-Leal: And if you want to put any extra ones that are that are on there. Like I said, until you get started.

849

01:23:02.640 --> 01:23:03.000

Okay.

850

01:23:04.470 --> 01:23:06.180

James Case-Leal: Excellent. So that's the to say that is

851

01:23:07.440 --> 01:23:18.870

James Case-Leal: I mean my schedule is I'm completely working from home right now. So my federal completely open and you don't have to do in the evening, but the rest of the committee, just let me know what works for you.

852

01:23:20.640 --> 01:23:22.410

James Case-Leal: Does anyone have any preferences in terms of time.

853

01:23:23.070 --> 01:23:24.570

awhite: Just to say that I had, but that funnel.

854

01:23:27.030 --> 01:23:27.930

James Case-Leal: Take anything. Sorry.

855

01:23:28.290 --> 01:23:31.860

awhite: Just the same, that I have with the facilities is that I needed at least two weeks.

856

01:23:32.280 --> 01:23:35.640

awhite: So I could just schedule around what we schedule.

857

01:23:36.540 --> 01:23:37.410

James Case-Leal: Alyssa, Anthony.

858

01:23:38.070 --> 01:23:50.370

Elissa: On Monday evening still better for me because I'm working all day, just like as if I was in the office. So, unfortunately. My days are not really freed up at all right.

859

01:23:51.120 --> 01:23:51.930

James Case-Leal: So seven o'clock.

860

01:23:52.980 --> 01:23:58.530

Antony Tseng: Yeah, I'm still working. I'm still working. Even though I'm working from home still working great.

861

01:23:58.890 --> 01:24:00.870

James Case-Leal: Alright, well it is seven o'clock on

862

01:24:02.490 --> 01:24:03.120

James Case-Leal: May 4

863

01:24:04.050 --> 01:24:04.410

awhite: Alright.

864

01:24:04.920 --> 01:24:06.000

Any questions for James

865

01:24:07.440 --> 01:24:11.160

Antony Tseng: Yeah, James, do we get anything for this month, though the review or no.

866

01:24:11.850 --> 01:24:12.300

James Case-Leal: No, we

867

01:24:12.510 --> 01:24:13.590

Matt Landahl: Did I'll send those

868

01:24:13.590 --> 01:24:15.330

James Case-Leal: Out. Okay.

869

01:24:16.140 --> 01:24:16.620

James Case-Leal: Thanks, man.

870

01:24:19.980 --> 01:24:21.570

awhite: Alright, Flora wellness.

871

01:24:23.430 --> 01:24:26.640

Flora: Yeah, so, um, we wellness isn't

872

01:24:27.570 --> 01:24:31.860

Craig Wolf: Meeting right now, obviously, and I spoke to Dr. Roland

873

01:24:31.860 --> 01:24:41.880

Craig Wolf: Today, and we're anticipating a delay with assessing the Wellness Policy, although there's no word on what that's going to look like.

874

01:24:43.170 --> 01:24:58.080

Flora: So there. There isn't much to report, but I do feel like wellness is happening all over the community right now. I'm so I want to thank everybody who's pitching in the volunteers, the staff can provide caravan always been so amazing and

875

01:24:58.860 --> 01:25:03.270

Craig Wolf: The transportation department for making everything that they're doing possible and

876

01:25:03.690 --> 01:25:10.170

Flora: I'm Dr. Landau for being sort of this rock and it's crazy storm. I seriously.

877

01:25:10.200 --> 01:25:11.790

Craig Wolf: Don't know how you do it. I would

878

01:25:12.900 --> 01:25:17.280

Craig Wolf: I would have lost my mind by now. So thank you for being for the rest of that don't have

879

01:25:22.140 --> 01:25:32.010

awhite: Any questions before so I just have a comment when you said that the community is doing well. There's some really good things going on in the community. I know that I'm some, some people have reached out

880

01:25:32.370 --> 01:25:37.530

awhite: And like there was one instance where they did like a take superball square pool.

881

01:25:38.340 --> 01:25:49.530

awhite: Where it has 100 squares and then people don't even \$30 for square. And what they did is that, so that was \$3,000 and then they donated if your name was picked or your number was drawn that person got to pick a business.

882

01:25:50.220 --> 01:25:55.590

awhite: To donate the money to they could pick one business to get 500 or two businesses to do to 50

883

01:25:55.920 --> 01:26:01.500

awhite: And then the same people that organized that did an easter egg one where they had, I think it was up to.

884

01:26:02.520 --> 01:26:04.290

awhite: 330 \$500 or

885

01:26:05.310 --> 01:26:06.240

awhite: It could have been more

886

01:26:06.510 --> 01:26:10.320

awhite: But um they picked eggs and they picked like five or six eggs and they donated

887

01:26:10.380 --> 01:26:11.160

awhite: And the money's worth.

888

01:26:11.190 --> 01:26:15.090

awhite: The money was donated to local businesses. So people are doing really good things.

889

01:26:15.540 --> 01:26:16.800

Craig Wolf: The bad common Megan.

890

01:26:17.250 --> 01:26:18.870

Flora: Yes. Yeah, yeah.

891

01:26:19.230 --> 01:26:19.800

Craig Wolf: My neighbors.

892

01:26:19.830 --> 01:26:21.300

Flora: Yeah yeah yeah

893

01:26:21.690 --> 01:26:28.530

Flora: Been really even though there's a lot of darkness. It's been really encouraging to see all the really wonderful things that are happening.

894

01:26:30.240 --> 01:26:32.520

awhite: Yeah, it's really nice to see how the community is coming together and

895

01:26:32.940 --> 01:26:33.210

So,

896

01:26:34.560 --> 01:26:35.220

awhite: Thank you for

897

01:26:36.300 --> 01:26:37.770

awhite: I'm Anthony diversity.

898

01:26:43.980 --> 01:26:44.430

Craig Wolf: Well, I

899

01:26:44.520 --> 01:26:54.600

Antony Tseng: There's nothing to report the diversity committees, a school board committee and I've been asked to board a district comedian and obviously with under these conditions. We're not meeting.

900

01:26:56.670 --> 01:27:18.030

Antony Tseng: I do have a board common question or something. So first of all, thank you. Thank you, Matt administrative team all the staff and personality that had been contributing with the with the feeding the children program your report about reaching thousand about 1000 of

901

01:27:19.140 --> 01:27:25.410

Antony Tseng: Families like they are meals. Was it, I believe it was, it was pretty pretty remarkable.

902

01:27:26.670 --> 01:27:28.560

Antony Tseng: Thank you for all that and thank you for

903

01:27:28.560 --> 01:27:29.160

Also

904

01:27:30.660 --> 01:27:33.900

Antony Tseng: Trying to make sure everyone's connected, but the Wi Fi and internet

905

01:27:35.280 --> 01:27:42.900

Antony Tseng: There was a suggestion I think that I think James started and Kristen

also kind of waited about in the

906

01:27:45.030 --> 01:27:48.480

Antony Tseng: The perception that that our budget is flat.

907

01:27:49.710 --> 01:27:51.240

Antony Tseng: Are we going to

908

01:27:52.500 --> 01:28:01.740

Antony Tseng: It after that conversation with the end of the workshop. I didn't see any follow up action on that. That's something we put on the agenda is something that we defer to the

909

01:28:02.820 --> 01:28:03.450

Antony Tseng: To the

910

01:28:05.700 --> 01:28:07.950

Antony Tseng: Um, so I credit a camera for your committees name right now.

911

01:28:09.630 --> 01:28:16.260

Antony Tseng: Yeah, I mean, what is that something that we need to discuss and take action, put it on someone's list or something.

912

01:28:18.390 --> 01:28:21.930

awhite: I have no problem with it gone to the Public Relations Committee as a draft something for the board.

913

01:28:24.810 --> 01:28:25.710

James Case-Leal: We need emotion for

914

01:28:26.610 --> 01:28:31.470

awhite: Know, I think that expect the public relations, they could just work on drafting something then Branson next for me.

915

01:28:36.300 --> 01:28:37.230

awhite: Anything else, Anthony.

916

01:28:38.160 --> 01:28:40.230

Antony Tseng: That's it. Thank you. Alright.

917

01:28:41.340 --> 01:28:42.780

awhite: Um, unless

918

01:28:46.500 --> 01:28:48.300

Elissa: I apologize. First, for being late.

919

01:28:49.980 --> 01:28:52.680

Elissa: Day behind on life here because we had power outage.

920

01:28:53.220 --> 01:28:56.130

Elissa: For a day and a half, so I didn't even know what day it was

921

01:28:56.790 --> 01:28:58.170

Antony Tseng: I was making dinner and then

922

01:28:58.500 --> 01:29:00.210

Elissa: Happened to look at my phone and saw

923

01:29:00.960 --> 01:29:02.880

Elissa: And we have a meeting tonight. So, I'm sorry.

924

01:29:02.880 --> 01:29:03.480

Elissa: About that.

925

01:29:05.220 --> 01:29:06.060

Elissa: I don't have

926

01:29:06.150 --> 01:29:08.130

Elissa: Really any comments, except

927

01:29:08.220 --> 01:29:09.840

Elissa: What others have already said.

928

01:29:09.900 --> 01:29:10.920

Elissa: Which is thank

929

01:29:10.920 --> 01:29:14.490

Elissa: You to Matt and your staff, you guys are doing an amazing job and

930

01:29:15.450 --> 01:29:17.850

Elissa: The feedback that I'm seeing and hearing is

931

01:29:18.210 --> 01:29:21.270

Elissa: Really, really good. So I'm very proud.

932

01:29:21.840 --> 01:29:25.260

Elissa: Of what we've accomplished during this ridiculous time so

933

01:29:26.700 --> 01:29:27.210

Elissa: Thank you.

934

01:29:28.440 --> 01:29:29.100

Elissa: That's all I have.

935

01:29:29.580 --> 01:29:30.900

awhite: Right. Thank you, Mike.

936

01:29:33.240 --> 01:29:42.300

Mike Rutkoske: I want to also reflect appreciation to Matt and the leadership, you know, central office and also through the school district.

937

01:29:42.930 --> 01:29:52.350

Mike Rutkoske: Schools for for keeping things going. And I, you know, and look forward to hopefully we'll be able to reopen before the end of before the end of school so

938

01:29:53.010 --> 01:30:03.180

Mike Rutkoske: Thank you for all the work you've done just wants to want to recognize they all match memory and all the team for what you have accomplished, or what we all have accomplished over the last couple years.

939

01:30:03.660 --> 01:30:16.320

Mike Rutkoske: With the budget and programming and bringing in teachers and reducing school sizes and really also getting out to a longer view, you know, three, five year plan. So I think we're really set up.

940

01:30:17.490 --> 01:30:21.270

Mike Rutkoske: To, to really continue to improve. So I do appreciate that.

941

01:30:22.500 --> 01:30:24.360

Craig Wolf: So that's all I had. Thanks.

942

01:30:25.170 --> 01:30:25.980

Mike Rutkoske: And I'm sorry, Craig.

943

01:30:26.490 --> 01:30:26.820

Public

944

01:30:28.410 --> 01:30:31.830

awhite: Comments tame it reminded me so I'm public relations.

945

01:30:32.970 --> 01:30:34.170

Craig Wolf: Cherry. Can you hear me good.

946

01:30:35.250 --> 01:30:36.180

Craig Wolf: Mm hmm. Okay.

947

01:30:37.200 --> 01:30:48.390

Craig Wolf: So we had that comment earlier about what kind of apps to see, we might do under the circumstances. It's really kind of hard to figure, but I think we fitted

948

01:30:49.470 --> 01:30:53.730

Craig Wolf: By to meet and maybe we can tag team with the facilities meeting.

949

01:30:54.870 --> 01:31:03.030

Craig Wolf: If Kristen gets set set up and I'll be there for one one night to meetings are here for one

950

01:31:04.140 --> 01:31:05.670

Craig Wolf: Or two meetings, wherever it is.

951

01:31:07.590 --> 01:31:17.580

Craig Wolf: There are a couple things to report, basically what happened is that the

state budget adoption became something that nobody's ever seen before.

952

01:31:18.120 --> 01:31:25.620

Craig Wolf: And I thought I'd seen it all with some of the attics that have gone on in past years, but this is a new one. And they basically

953

01:31:26.610 --> 01:31:33.630

Craig Wolf: At this point, they can only adopt anything by acclamation, which means if one person disagrees with it. The whole thing goes down.

954

01:31:34.260 --> 01:31:47.190

Craig Wolf: That's like not even having a legislator, almost. So I'm very concerned about that. And I'd like to hear more about exactly what they think they can do so if you guys have had discussions with

955

01:31:47.760 --> 01:31:54.570

Craig Wolf: Our representatives about that question of just what kind of. What kind of juice to they have these days.

956

01:31:55.620 --> 01:31:56.700

Craig Wolf: I'd like to hear it.

957

01:31:58.080 --> 01:32:02.820

Craig Wolf: But there's a number of things in the inactive budget and it works. Nope.

958

01:32:04.530 --> 01:32:04.980

Craig Wolf: And as

959

01:32:06.660 --> 01:32:15.660

Craig Wolf: As indicated earlier, one of the things that we don't know about is what's happening with school board elections and petitions and the adoption of the budget.

960

01:32:16.170 --> 01:32:30.360

Craig Wolf: We do know that it's not going to happen until after June one. But what we don't know is when we're going to get more information from the governor's office about what kind of special arrangements will be made.

961

01:32:31.800 --> 01:32:37.560

Craig Wolf: And that is, you know, there are three of us, whose terms expired on June 30

962

01:32:38.580 --> 01:32:55.620

Craig Wolf: And that's the same for boards around the state and least in different different iterations, depending upon what kind of districts. It is now many executive board but one logical thing that they are to do is extend the terms of incumbents.

963

01:32:57.240 --> 01:33:07.590

Craig Wolf: Because otherwise, we start to have a whole new set of problems about just who's on the board and who's got legitimate standing to be there. We don't need that kind of problem right now.

964

01:33:08.760 --> 01:33:23.490

Craig Wolf: And it's not about doing. There's also people who might want to run for a board seat. What are they supposed to do so. I've been carrying on a conversation with Brian fester read this book. He's a director of the

965

01:33:24.720 --> 01:33:34.620

Craig Wolf: The outreach advocacy wing there and had a response that we shared with you by email earlier today. If you haven't looked at it, please do.

966

01:33:35.850 --> 01:33:43.710

Craig Wolf: They aren't working on it. And I know the governor's a very busy person and stay dad is very busy because we're juggling

967

01:33:45.060 --> 01:33:58.110

Craig Wolf: But this does need to be resolved. So we put a little pressure on there, and I hope that that helps someone so we should see more very soon, because the times the wasted.

968

01:33:59.700 --> 01:34:17.970

Craig Wolf: It when they adopted the inactive budget as Emery described for you. We pretty much came out flat as a good way to put it, the pandemic adjustment is down and the Federal care, Zach, money is in and they basically equal each other.

969

01:34:19.080 --> 01:34:31.140

Craig Wolf: But is Meredith mentioned as quite correct because there is inflation and because we do have contract increases, not to mention the fact that we have hopes and dreams and goals.

970

01:34:32.580 --> 01:34:34.620

Craig Wolf: winds up being effectively cut

971

01:34:36.210 --> 01:34:38.910

Craig Wolf: So one thing that the state budget.

972

01:34:40.230 --> 01:34:50.670

Craig Wolf: Process did not do was to attempt to raise any kind of special levy or special taxi. Some of you may remember what time. We didn't have a billionaire sex.

973

01:34:51.720 --> 01:35:00.030

Craig Wolf: Whatever happened to that. I mean, it's just like totally dropped by the boards and even get a good discussion from what I can see, so

974

01:35:01.680 --> 01:35:13.620

Craig Wolf: Who's going to be on the short end of the stick. Well, and some extent all the local property taxpayers and but to the main extent it's going to be the students

975

01:35:14.070 --> 01:35:29.820

Craig Wolf: Who are not going to see the kind of advances that we've been working on and we'll probably see some kind of setbacks, if nothing happens to improve this at the federal level, we seem to have a nice, wonderful rail debate going on about who's got the power

976

01:35:30.900 --> 01:35:45.960

Craig Wolf: I know that our seventh grade classes we teach about the Constitution and the amendments there too. There's a 10th Amendment thing that kind of clarifies but the relationship is between the states and the federal government. I suggest President Trump should read it.

977

01:35:48.570 --> 01:35:52.080

Craig Wolf: But anyway, getting back to the state of New York. There are some things that happened.

978

01:35:53.880 --> 01:36:06.570

Craig Wolf: That we've talked about before, that actually were positive the governor's proposal to dissolve 10 expense based aids and the foundation aid was rejected by the legislature.

979

01:36:08.310 --> 01:36:22.500

Craig Wolf: pleased to hear that because we advocated in that direction. There were proposes to change building aid and transportation aid in a way that would not have been good for us. But that was also rejected. So that was a plus.

980

01:36:23.730 --> 01:36:24.180

Craig Wolf: The

981

01:36:26.070 --> 01:36:35.340

Craig Wolf: Building level financial data apparently is still in and I'm not sure how that's going to come out this this is quoted Ronnie wants to

982

01:36:36.000 --> 01:36:46.200

Craig Wolf: Detail that sound that at some point of the good to hear about. I'm not sure what the latest is really there was had time off for voting law, which was going to

983

01:36:47.610 --> 01:36:54.030

Craig Wolf: Interview the adverse to keeping education going. So that was

984

01:36:56.010 --> 01:37:08.220

Craig Wolf: reverted to require only two hours of paid leave fully for employees who do not have a four hour window, either before after work. So that was a plus size. I can see

985

01:37:09.480 --> 01:37:14.190

Craig Wolf: So we have some good things to look at on the legislative outcome.

986

01:37:16.650 --> 01:37:21.510

Craig Wolf: That's my long winded report. Questions, comments, thoughts.

987

01:37:23.340 --> 01:37:24.330

awhite: And questions for Craig.

988

01:37:25.980 --> 01:37:27.600

James Case-Leal: And I have a question about

989

01:37:29.010 --> 01:37:31.260

James Case-Leal: We're talking about writing up a resolution.

990

01:37:32.460 --> 01:37:35.460

James Case-Leal: Would you want to pass around a draft as that.

991

01:37:36.510 --> 01:37:41.730

James Case-Leal: Would you be writing that in meeting or some you would draft something up with you want to share that with us before the next meeting.

992

01:37:45.090 --> 01:37:45.420

awhite: I think

993

01:37:45.450 --> 01:37:48.930

Craig Wolf: I'm not sure what the timing should be. Yeah. Today you have some thoughts on that.

994

01:37:49.530 --> 01:37:51.000

awhite: Sure. So I think what's the committee.

995

01:37:51.090 --> 01:37:55.590

awhite: Get comes with it. They could share it definitely before the meeting, but I think the committee needs a draft at first.

996

01:37:55.950 --> 01:37:59.790

awhite: So after the committee report, we could get it right out to you. So the rest of the board.

997

01:37:59.910 --> 01:38:00.060

Craig Wolf: The

998

01:38:00.210 --> 01:38:00.900

awhite: Art to the meeting.

999

01:38:01.920 --> 01:38:02.220

James Case-Leal: This

1000

01:38:02.700 --> 01:38:05.640

Craig Wolf: Meeting is set for what was the date for the next meeting of the Board.

1001

01:38:09.210 --> 01:38:11.130

awhite: What's it April 24 is the next

1002

01:38:11.130 --> 01:38:11.400

Meeting.

1003

01:38:15.990 --> 01:38:16.590

awhite: Well, before

1004

01:38:16.950 --> 01:38:20.790

awhite: I'm not saying the next meeting, but before the board meeting when it would be adopted.

1005

01:38:21.450 --> 01:38:23.310

James Case-Leal: Okay, great. It doesn't decide questions.

1006

01:38:23.790 --> 01:38:24.900

Craig Wolf: Probably should know this who

1007

01:38:24.960 --> 01:38:26.190

James Case-Leal: Who's on that committee crag

1008

01:38:27.060 --> 01:38:27.750

James Case-Leal: Does anyone else.

1009

01:38:27.930 --> 01:38:29.310

Kristan Flynn: Melissa, Meredith.

1010

01:38:30.420 --> 01:38:30.900

Okay, great.

1011

01:38:35.160 --> 01:38:36.810

Kristan Flynn: Now that's what he was talking about meeting.

1012

01:38:39.570 --> 01:38:40.860

James Case-Leal: Okay, so we're looking

1013

01:38:40.860 --> 01:38:41.190

Craig Wolf: At next

1014

01:38:45.150 --> 01:38:47.580

Craig Wolf: So facilities at 7pm.

1015

01:38:48.450 --> 01:38:50.790

Kristan Flynn: I think we said facilities at six possibly

1016

01:38:52.260 --> 01:38:53.100

Craig Wolf: I can do that. Yeah.

1017

01:38:54.570 --> 01:38:55.590

Craig Wolf: All right, what was the date.

1018

01:38:59.490 --> 01:39:01.080

Craig Wolf: Today will be this coming Wednesday.

1019

01:39:02.100 --> 01:39:03.540

Craig Wolf: For our committee meeting.

1020

01:39:08.730 --> 01:39:09.990

Mike Rutkoske: Next Wednesday. Right.

1021

01:39:11.730 --> 01:39:13.650

Craig Wolf: Wednesday will be the 22nd. Yes.

1022

01:39:15.990 --> 01:39:16.530

meredithheuer: So,

1023

01:39:17.340 --> 01:39:19.590

Craig Wolf: These goes at six. What time

1024

01:39:20.970 --> 01:39:22.020

Craig Wolf: To go

1025

01:39:22.740 --> 01:39:24.870

Kristan Flynn: Well, it really depends on what we

1026

01:39:24.900 --> 01:39:30.960

Kristan Flynn: How much ground we think we need to cover and we could probably do it in an hour, two hours.

1027

01:39:33.510 --> 01:39:35.310

awhite: Think there's gotta be some lengthy discussion.

1028

01:39:35.910 --> 01:39:36.270

Okay.

1029

01:39:37.380 --> 01:39:37.590

Kristan Flynn: Yeah.

1030

01:39:37.980 --> 01:39:39.420

Craig Wolf: Could be could be

1031

01:39:42.930 --> 01:39:46.770

Craig Wolf: Your to allow that two hours for that facilities meeting.

1032

01:39:47.340 --> 01:39:48.060

awhite: Yes, so say

1033

01:39:48.660 --> 01:39:50.250

Kristan Flynn: Six to eight, six to eight.

1034

01:39:50.430 --> 01:39:55.980

Kristan Flynn: And then a few as eight or 834

1035

01:39:58.980 --> 01:39:59.250

Kristan Flynn: Well,

1036

01:39:59.760 --> 01:40:01.800

Craig Wolf: You know, why don't we figure

1037

01:40:03.120 --> 01:40:20.220

Craig Wolf: Call it so that we have to publicize this, you know, so if we have to delay it at least we've set a time. So why don't you say eight o'clock. Greg for for the 22nd. 22nd. That sounds good, a class on the 22nd and then the facilities would be six o'clock on the 22nd.

1038

01:40:21.960 --> 01:40:25.530

Craig Wolf: We'll have to figure out how we do I get probably a phone conference or whatever.

1039

01:40:28.560 --> 01:40:31.260

Craig Wolf: Six feet apart or what we could do this.

1040

01:40:31.650 --> 01:40:32.700

awhite: This platform, Craig.

1041

01:40:34.740 --> 01:40:35.010

Thanks.

1042

01:40:36.150 --> 01:40:37.710

Craig Wolf: Yep. Okay.

1043

01:40:39.330 --> 01:40:39.750

Craig Wolf: All right.

1044

01:40:43.380 --> 01:40:44.100

awhite: Any other questions.

1045

01:40:47.010 --> 01:40:47.970

awhite: All right, Meredith Europe.

1046

01:40:50.490 --> 01:40:51.060

meredithheuer: Um,

1047

01:40:52.140 --> 01:40:57.780

meredithheuer: You know, I feel the same as everyone else. I think that the district is doing a great job and the priorities are.

1048

01:40:58.320 --> 01:41:12.660

meredithheuer: Perfect on the health and mental health of students before we get into the other stuff. And I think a lot of compassion in terms of online learning, since it's so new to everyone and I don't have any committee reports, we don't have another

1049

01:41:13.950 --> 01:41:18.690

meredithheuer: Curriculum meeting scheduled Eric. Are you will not be what's

1050

01:41:18.720 --> 01:41:20.010

meredithheuer: What's happening with that.

1051

01:41:20.070 --> 01:41:20.550

meredithheuer: Would be

1052

01:41:22.080 --> 01:41:23.010

meredithheuer: You end up again.

1053

01:41:25.980 --> 01:41:31.200

wright.e: Think a lot of the curriculum work has been going through the committee's established throughout the course of the day.

1054

01:41:31.620 --> 01:41:35.790

wright.e: Only being because we've had too many changes on the fly like to distance learning plan.

1055

01:41:37.200 --> 01:41:47.070

wright.e: Into a grading practices, etc. I think once we can get all of those things that we may be able to come back together after that point and have some meetings.

1056

01:41:47.520 --> 01:41:56.040

wright.e: But a lot of the pieces that we were talking about work for next year and being that the budget is going to be flat, you may have to hold off.

1057

01:41:56.940 --> 01:42:01.110

wright.e: So we kind of have to play it by ear. Before you know we make that decision moving forward.

1058

01:42:02.100 --> 01:42:04.620

meredithheuer: Okay. Keep me posted um

1059

01:42:05.640 --> 01:42:06.570

meredithheuer: So, yeah.

1060

01:42:10.290 --> 01:42:10.860

awhite: That's it, man.

1061

01:42:12.510 --> 01:42:13.560

awhite: Alright, any questions from Eric

1062

01:42:15.450 --> 01:42:25.380

awhite: Right, I have no comments. Besides, you know, great job with the administrative staff that they're doing and the principles as well as the teachers I know my kids, you know, took a while to get back in the

1063

01:42:26.640 --> 01:42:35.370

awhite: Schedule like once they started this week we really got back into the schedule. I think what really helped was that flexible Friday and the virtual field trip Friday helped

1064

01:42:36.270 --> 01:42:44.130

awhite: A ton. So they had from last Friday and so that gave them something look forward to in the projects and stuff. So, good job with that or or administrators

1065

01:42:46.290 --> 01:42:49.860

awhite: Look back. Alright, next is new business. We do have

1066

01:42:51.090 --> 01:42:57.360

awhite: A discussion in budget vote for the school boards and this is a roll call.

1067

01:43:03.270 --> 01:43:04.650

awhite: I'm sorry, I'm just trying to pull it up.

1068

01:43:15.090 --> 01:43:19.530

Craig Wolf: I said again Maria was trying to talk to unmuted. Yes.

1069

01:43:22.350 --> 01:43:24.660

annmariequartironi: Okay I unmuted. Okay.

1070

01:43:25.380 --> 01:43:25.680

Craig Wolf: Um,

1071

01:43:25.800 --> 01:43:29.730

anmariequartironi: It's for discussion purposes, Anthony. The vote is the 21st board meeting.

1072

01:43:30.240 --> 01:43:45.420

awhite: Okay. And so we did. I know. Matt put in an update that. If you have any questions they were going to come to a board meeting, but due to the school closures. If you have any questions, I think Matt said you can email him and he'll forward to Dr. Holy or he gave you, Doctor Who leads our

1073

01:43:46.860 --> 01:43:48.660

awhite: Email so you can email them directly.

1074

01:43:48.780 --> 01:43:52.680

awhite: But the all the information on the budget is there as well as the three candidate.

1075

01:43:54.120 --> 01:43:54.300

awhite: And

1076

01:43:54.720 --> 01:44:01.740

Mike Rutkoske: So so out to look for the email I may, I may have a few questions for him another see this presentation.

1077

01:44:03.660 --> 01:44:09.240

awhite: Sure. So I think it was in a Friday update that Matt gave Mike he

1078

01:44:09.420 --> 01:44:14.370

Matt Landahl: Mike, you can just, you can just email me and I can send them to dr Julio if you want

1079

01:44:14.430 --> 01:44:16.530

meredithheuer: Okay, there's also an email on the

1080

01:44:16.710 --> 01:44:19.020

meredithheuer: PowerPoint presentation. Sure.

1081

01:44:21.900 --> 01:44:34.710

Mike Rutkoske: All right, I'll look for. I'm sure it is ok we I mean, basically, we don't really have much of a say in this unless we're going to back out of both of us, which we're not going to do

1082

01:44:36.960 --> 01:44:38.700

Mike Rutkoske: That's, that's kind of my view of it.

1083

01:44:42.540 --> 01:44:46.980

Mike Rutkoske: So I'll put together some questions and I ran them through through I'll give him to you, Matt.

1084

01:44:48.360 --> 01:44:49.380

Matt Landahl: Okay. Sounds good.

1085

01:44:50.940 --> 01:44:52.830

awhite: Any other questions about the bosses budget.

1086

01:44:56.010 --> 01:45:06.690

awhite: Alright, go on to the other new business discussion about the 2020 census. This is something I know, I know. Florida reached out we were going to put it on the last board meeting, but we weren't sure how the platform of the

1087

01:45:08.040 --> 01:45:08.550

Antony Tseng: Car

1088

01:45:08.760 --> 01:45:15.600

awhite: Go. So we felt a little bit more comfortable. So we added on Florida, did you want to start that discussion.

1089

01:45:17.970 --> 01:45:22.410

Flora: I can, you know, I should have. I wish I'd seen that it was on there.

1090

01:45:25.710 --> 01:45:31.230

Flora: Have been a little more prepared, but so this is a discussion that

1091

01:45:33.060 --> 01:45:36.600

Antony Tseng: We're having with Dr. Land all and Julie. Sure. Oh, she

1092

01:45:37.680 --> 01:45:38.340

Antony Tseng: Before

1093

01:45:39.450 --> 01:45:40.650  
Sort of took over.

1094  
01:45:41.850 --> 01:45:46.770  
Flora: And we were talking about just making families.

1095  
01:45:46.800 --> 01:45:48.480  
Antony Tseng: In the district aware that

1096  
01:45:49.380 --> 01:45:53.910  
Flora: You know, filling out the census is something that's not only safe for them to do, but it's

1097  
01:45:53.910 --> 01:45:55.350  
Antony Tseng: Also really critical.

1098  
01:45:55.950 --> 01:45:59.760  
Craig Wolf: To the future of our funding and to, you know,

1099  
01:46:01.320 --> 01:46:15.690  
Flora: citizens of the state getting you know everything that that they're owed. And so there was some language which I, I will send around. I am going to have to look through my email and find it that

1100  
01:46:16.140 --> 01:46:20.520  
Craig Wolf: We were talking about sharing out with the community. I don't know, given

1101  
01:46:20.730 --> 01:46:23.880  
Flora: everything that's going on you know how we want to do that or

1102  
01:46:23.880 --> 01:46:26.250  
Antony Tseng: what that would look like, um,

1103  
01:46:27.450 --> 01:46:33.300  
Flora: I, I believe. Still, still a critical thing maybe now more than ever.

1104  
01:46:34.560 --> 01:46:36.030  
Craig Wolf: So that's where

1105

01:46:36.060 --> 01:46:39.630

Flora: You know, that's where I had done. We had initially talked about making

1106

01:46:40.950 --> 01:46:41.820

Flora: April.

1107

01:46:41.970 --> 01:46:49.980

Craig Wolf: That you know census Awareness Month and then communicating in, you know, in every district communication sort of mentioning

1108

01:46:50.010 --> 01:46:50.910

Flora: Something about it.

1109

01:46:52.350 --> 01:46:55.170

Flora: So I don't know. Not if you've had a

1110

01:46:55.320 --> 01:46:57.300

Craig Wolf: Specific events or what you would want it to look.

1111

01:46:57.300 --> 01:47:04.710

Antony Tseng: Like now given everything that's going on. But that's sort of where we ended and there's certainly language we use

1112

01:47:05.910 --> 01:47:06.600

Want to use that

1113

01:47:09.360 --> 01:47:21.420

Matt Landahl: Yeah, I'm happy to pull that and just start communicating it in some of my communications and you know it seems like it's more important now than ever. So

1114

01:47:22.710 --> 01:47:31.380

Matt Landahl: I'll just pull up the stuff from our meeting this seems like a lot seems like a really long time ago and and start communicating about running past few

1115

01:47:31.380 --> 01:47:31.740

Flora: Years.

1116

01:47:31.800 --> 01:47:33.720

Matt Landahl: I mean, so I'm like, yeah, that's

1117

01:47:33.870 --> 01:47:41.850

Craig Wolf: Great, and I'll send you. I'll send I'll send to everyone, but you know you that you can you can start making use of it.

1118

01:47:41.910 --> 01:47:44.910

Flora: What we the language we had come up with and

1119

01:47:45.600 --> 01:47:46.770

Flora: Yeah, that's

1120

01:47:46.890 --> 01:47:50.100

Flora: That's really all I had. I mean, unless anybody has a question.

1121

01:47:51.060 --> 01:47:52.830

Antony Tseng: I'd love to just chime in real quick.

1122

01:47:53.430 --> 01:48:03.330

James Case-Leal: In regards to the census. I just wanted to say for anyone who might be listening, uh, I actually did my census today. It's been on my to do list for a long time.

1123

01:48:04.080 --> 01:48:08.220

James Case-Leal: But we did it online. And it was really easy. It's my 2020 census.gov

1124

01:48:08.610 --> 01:48:18.030

James Case-Leal: Just wanted to say it since I feel like we should bring let's say the site. Every time we can. It's very, very simple. It's very quick. Some of the questions felt a little invasive just

1125

01:48:18.060 --> 01:48:26.520

James Case-Leal: For me personally, but I decided it is worth it. You just need to say your birthday, your name and your address of all the people who live there. So,

1126

01:48:27.450 --> 01:48:35.610

James Case-Leal: It wasn't as invasive as some things. But, you know, that is just

be prepared. I think it's worth it. And you should do it, but that's where are you doing

1127

01:48:38.610 --> 01:48:40.830

awhite: Any other questions, comments.

1128

01:48:41.610 --> 01:48:54.960

Antony Tseng: Yeah, I mean we. Is that something that we're, uh, we're encouraged to blast it out on Facebook, social media role for or we're just kind of letting people find their way there.

1129

01:48:56.070 --> 01:48:57.420

Antony Tseng: I mean this that

1130

01:48:57.660 --> 01:49:02.520

Flora: I mean, I know James had brought it up previously. But then there was a there was an article

1131

01:49:03.780 --> 01:49:14.430

Flora: I think it was from miss those publications. But again, it's been a while. And they they actually were encouraging, you know, sharing and promoting it in communication.

1132

01:49:14.940 --> 01:49:26.670

Flora: And creating a creating a census month since Awareness Month. So it's definitely something that districts are being encouraged to do, or at least they were being encouraged to do. Yeah.

1133

01:49:28.230 --> 01:49:30.570

Antony Tseng: We do have that like that that

1134

01:49:31.740 --> 01:49:33.960

Antony Tseng: digital sign at the end of model on to

1135

01:49:36.540 --> 01:49:37.320

Antony Tseng: Yeah, exactly.

1136

01:49:37.350 --> 01:49:38.490

meredithheuer: Right, okay.

1137

01:49:39.090 --> 01:49:41.310

Matt Landahl: Oh, well, we can add to that.

1138

01:49:47.700 --> 01:49:49.500

awhite: Any other questions, comments.

1139

01:49:51.300 --> 01:49:52.860

awhite: I'm sorry blindside you for

1140

01:49:54.270 --> 01:49:55.920

Now I should do all the reading.

1141

01:49:57.780 --> 01:49:59.730

Flora: I'm working and teaching

1142

01:50:02.250 --> 01:50:03.000

As everyone knows,

1143

01:50:04.230 --> 01:50:18.540

awhite: Alright, so we're going to go to the consent agenda on the use of the Consent Agenda permissive Board of Education to make more effective use of assigned by adopting a single motion cover those relatively routine matters which are included any member of the board who wish to discuss

1144

01:50:18.540 --> 01:50:20.910

awhite: Individually particular piece of business and a consent.

1145

01:50:20.910 --> 01:50:23.820

awhite: Agenda may also indicate in the animal be considered and put it

1146

01:50:23.820 --> 01:50:23.970

Craig Wolf: On

1147

01:50:24.930 --> 01:50:27.660

awhite: That's preserving the right verb board members be heard on any issue.

1148

01:50:28.140 --> 01:50:30.630

awhite: Is there anything on the Consent Agenda board member would like cold.

1149

01:50:36.960 --> 01:50:37.470

awhite: Hearing

1150

01:50:38.580 --> 01:50:41.820

awhite: Hearing none, I need a motion to adopt.

1151

01:50:42.870 --> 01:50:49.290

awhite: THE CONSENT AGENDA 10.01 through 10.16

1152

01:50:50.730 --> 01:50:51.240

Move.

1153

01:50:52.290 --> 01:50:53.070

awhite: That was Anthony

1154

01:50:53.550 --> 01:50:55.680

awhite: Second, that was Kristen.

1155

01:50:57.300 --> 01:50:58.590

awhite: Comments or questions.

1156

01:51:02.040 --> 01:51:05.340

awhite: hearing or seeing none. Can you guys when you say

1157

01:51:06.180 --> 01:51:11.010

awhite: A name or yes or no. Can you just do a thumbs up at about two, so I could do a video, make sure

1158

01:51:11.340 --> 01:51:12.180

awhite: All in favor.

1159

01:51:13.140 --> 01:51:14.670

Antony Tseng: Aye. Aye.

1160

01:51:15.750 --> 01:51:17.040

Craig Wolf: Opposed. I

1161

01:51:20.670 --> 01:51:23.910

Craig Wolf: Craig. Are you opposed, no. Okay.

1162

01:51:25.440 --> 01:51:27.510

awhite: All right, a nine oh

1163

01:51:29.790 --> 01:51:31.170

awhite: Alright, um,

1164

01:51:33.090 --> 01:51:35.730

awhite: I need a motion to adjourn to executive session.

1165

01:51:37.020 --> 01:51:48.780

awhite: Um, to review the employment history of particular individuals and to seek legal advice from the school attorney state law client attorney client privilege and the board is not expect to take action after Executive Session.

1166

01:51:49.680 --> 01:51:50.280

Antony Tseng: So moved.

1167

01:51:54.480 --> 01:51:56.520

awhite: Was that Anthony and Kristen. I'm sorry I don't have the screen.

1168

01:51:57.810 --> 01:51:58.170

Kristan Flynn: For

1169

01:51:59.700 --> 01:52:00.570

Kristan Flynn: Alyssa, sorry.

1170

01:52:00.840 --> 01:52:02.340

Kristan Flynn: I can't see. You're not on my screen.

1171

01:52:03.060 --> 01:52:04.980

Antony Tseng: You just pop up as a special

1172

01:52:04.980 --> 01:52:05.550

Kristan Flynn: Guest Star.

1173

01:52:06.960 --> 01:52:08.130

James Case-Leal: Quick question about that.

1174

01:52:09.240 --> 01:52:12.090

James Case-Leal: And I probably should have read my emails closer. How are we doing that.

1175

01:52:12.840 --> 01:52:21.480

awhite: So you're going to go to arm your Bo email and you're going to look at the there's nine tiles on the top right hand corner.

1176

01:52:22.050 --> 01:52:32.070

awhite: And if you click on the nine tiles, you'll see that there's a Google meet you go to Google me, and you'll see that there's an invitation in there for you to join the Google meet

1177

01:52:32.310 --> 01:52:34.170

awhite: And that's where the executive session will be

1178

01:52:34.620 --> 01:52:38.640

Matt Landahl: I think you can also just go straight to the invitation that I sent to your inbox to

1179

01:52:40.170 --> 01:52:40.650

James Case-Leal: out of sync.

1180

01:52:40.770 --> 01:52:44.880

James Case-Leal: So if I just want to call the number, it'll still work. Yes.

1181

01:52:45.660 --> 01:52:45.960

Elissa: Okay.

1182

01:52:45.990 --> 01:52:47.160

James Case-Leal: Thank you do

1183

01:52:47.340 --> 01:52:48.660

James Case-Leal: Do we know can we do that.

1184

01:52:48.810 --> 01:52:50.910

James Case-Leal: And stay in this meeting, or do we have to leave this meeting.

1185

01:52:50.910 --> 01:52:51.540

James Case-Leal: To go to that.

1186

01:52:51.750 --> 01:52:52.710

Craig Wolf: We gotta leave this

1187

01:52:52.830 --> 01:52:53.760

awhite: We have to leave this one.

1188

01:52:54.180 --> 01:52:55.800

Elissa: Camera can't work both

1189

01:52:58.080 --> 01:52:59.550

Craig Wolf: So, be clear on how to

1190

01:52:59.550 --> 01:53:00.330

awhite: Get to the

1191

01:53:00.750 --> 01:53:01.230

awhite: To the exact

1192

01:53:04.110 --> 01:53:05.610

Kristan Flynn: We just jump out of here. So,

1193

01:53:06.840 --> 01:53:08.460

Kristan Flynn: Do we have any action before we leave here.

1194

01:53:09.000 --> 01:53:15.630

awhite: Um, no, there's no action the germ of the meaning will be and the Executive Session. So then that's the only action that we're

1195

01:53:16.020 --> 01:53:20.640

awhite: We would take is after the executive session we adjourn the meeting. So we could do that in Executive Session.

1196

01:53:21.180 --> 01:53:24.420

awhite: Okay, so we'll leave here but Craig. Did you have a question.

1197

01:53:25.320 --> 01:53:30.570

Craig Wolf: I, yeah, I just found it can join by phone I see the numbers there. And then there's a pin.

1198

01:53:31.740 --> 01:53:32.040

awhite: Yep.

1199

01:53:32.520 --> 01:53:32.730

Yeah.

1200

01:53:34.200 --> 01:53:36.810

Craig Wolf: Okay, are we taking a little bit of a break or what

1201

01:53:37.290 --> 01:53:40.170

awhite: Know if you need to go to the Great Britain.

1202

01:53:43.980 --> 01:53:44.040

awhite: Alright.

1203

01:53:45.120 --> 01:53:45.420

awhite: Guys.

1204

01:53:46.680 --> 01:53:47.250

awhite: Thank you all.
