Dear counseling staff:

We hope this letter finds you and your students safe and well.

As your students begin to think about their summer plans, we would like to encourage them to attend Edge, the University of Delaware's summer college program.

Edge is a three-week, credit-bearing college experience held July 9 – 29, 2023. Edge is designed for accomplished and highly motivated high school students going into their junior and senior years.

Students in Edge will have the opportunity to prepare for college as they learn from engaging and highly-respected University of Delaware faculty and staff, take part in on- and off-campus activities and build community with other students from all over the world.

Previous Edge students have described their experience in glowing terms:

"I had such a wonderful time in and out of the classroom and I learned so much about college and college life and even more about myself. I met people from all walks of life and I had such a unique and special experience that I will hold with me for the rest of my life."

—*rising H.S. senior*

"[The time] I spent completing the Edge program was definitely one I will never forget. I learned how to be on my own, time management and life skills."

—*rising H.S. senior*

More information about this program, and the link to apply, can be found at udel.edu/edge.

We appreciate your support and hope to have the opportunity to host your students in the Edge summer college program. Please share this information with your students, parents and colleagues. We have enclosed a poster that can be posted in your school.

If you have any questions, please feel free to contact us at edge@udel.edu.

Sincerely,

Tim Danos, M.P.A.

Associate Director of Pre-College Programs
